# COMPANY BACKGROUND

**Halal Watch World LLC** is a halal certification limited liability corporation based in the state of New York, and has operated in the certification industry since 1990. HWW is an organization that stands upon the trust of the Muslim public, and believes that it is imperative that their trust never be jeopardized. We maintain standards to the highest degree of scrutiny and perform regular audits for the protection of our constituents.

Halal Watch World understands that halal certification is a communal obligation (فرض كفاية), meaning, at least one person of the community must uphold it. If no one takes up this responsibility, the entire community bears a burden of sin. Therefore, we must be extra diligent with this effort. We realize the seriousness of the matter and understand the dire consequences of not filling this duty to the fullest capacity. God explains this to us in the Holy Quran by His statement:

***“ And say not concerning that which your tongue says falsely: 'This is Halal and this is Haram,' so as to invent lies against Allah. Verily, those who invent lies against Allah will never prosper...A passing brief enjoyment (will be theirs), but they will have a painful torment.”***

*[Al Quran] 16:116-117*

HWW ensures to the best of its ability a high level of authenticity is upheld. This allows them to gain the trust of the Muslim community, and garner strong relationships with companies who produce, process, and distribute halal products at all levels. By this, they are able to offer halal producing company's guidance and consultation on the direction of their processes and products, while ensuring that Islamic dietary standards are always maintained and monitored. Muslims can use this information in order to make well informed decisions about what they choose to eat.

**Legal Filings:** Halal Watch World holds registered trademark number 4728733, and Department of State (New York) number 4814343. Halal Watch World is also a registered halal certifying organization with The Department of Agriculture and Markets of New York State (See supporting documentation).

We begin in the name of God SWT

# CERTIFICATION CONSIDERATIONS

There are 4 main factors taken into consideration when determining the halal status of a product:

## **1. Is the product/ingredient Halal Aslan (by default)?**

If the product is Halal by default, then the location it is harvested, produced, or manufactured in, even if done so by a non-Muslim, is not necessary to inspect.

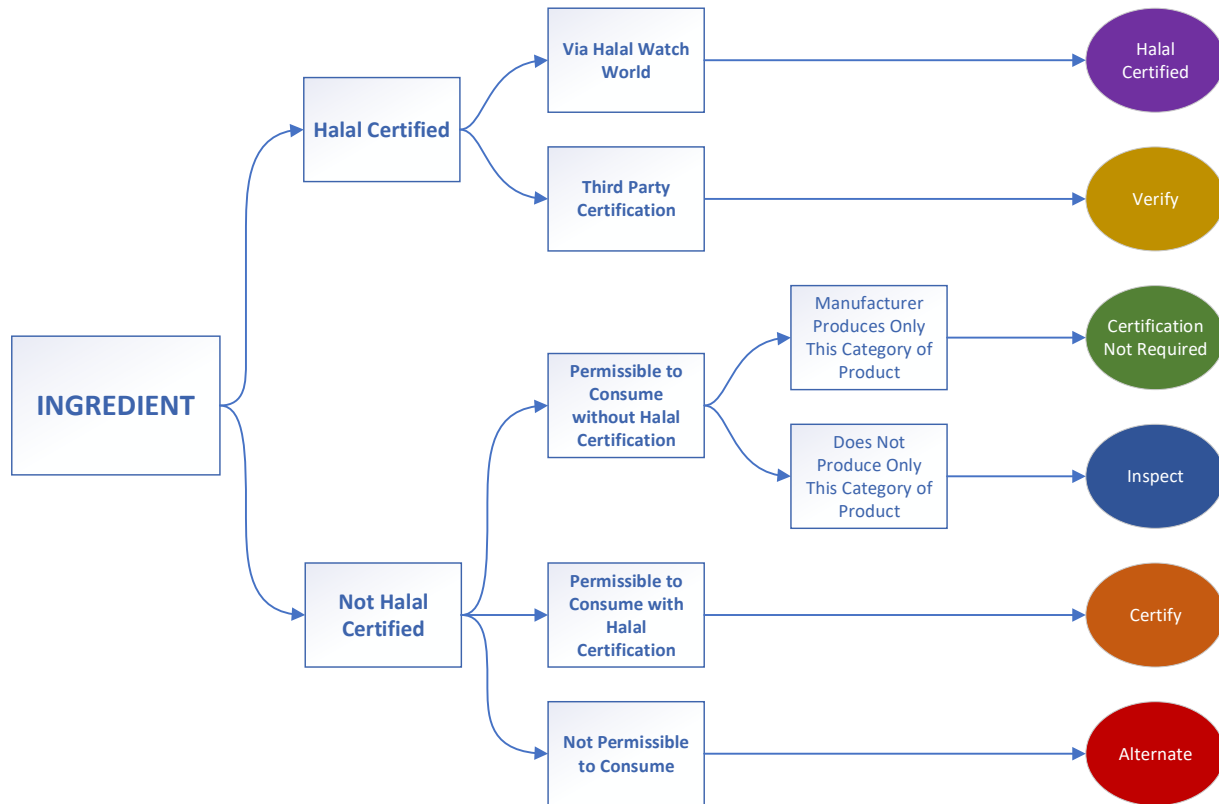

## **2. Is the product/ingredient Halal certified via another organization?**

If another organization certifies the product as Halal, then it is incumbent upon us to perform a *tahqeeq* (verification) certification of the establishment. We must be able to ascertain that the certifying body is competent and capable of determining the status of such products. In the event that we are unable to gain this information, our organization must inspect the location of production before certifying.

## **3. Are there any impermissible ingredients being produced in the same facility?**

As is the norm in Muslim minority societies, manufacturers produce both Halal and Non-Halal products in the same facilities. If other non-Halal items are produced in the same facility, an inspection may be required. In the event that an inspection is not possible, Halal Watch World reserves the right to utilize other forms of off-site audit procedures requiring documentation and the like in order to determine the facilities halal production capabilities. It is generally required for us to determine that the manufacturer prevents the following:

1. Product Contamination
2. Cleaning Method fulfils Islamic requirements
3. Separate storage locations between Halal and non-Halal products, or preventative measures are in place to remove the possibility of mislabelling
4. Halal certified label is visible either on the box or the product
5. Halal certificate from source meat supplier is valid

Regarding contamination, products cannot be cooked upon or within the same utensils without proper cleansing. This means that any liquid substance that interacts with non-halal products becomes contaminated. This includes oil, and other wet cooking surfaces. Thus, if a vat of oil is used to cook non-halal products (which is considered as filth), it cannot be used to cook Halal products without contaminating it.

#### 4. Are there any contents in the product that contain impermissible ingredients?

We refer to the list of impermissible consumables on the previous pages. If the product under audit is found to contain any of the ingredients on the ban list, these products cannot be considered as halal.

## COMPANY PROFILE

Founded in 1992, West Coast Cosmetics, a leading cGMP cosmetic manufacturer, located in Chatsworth, California. We have earned the reputation of being one of the most sought-after custom cosmetic manufacturers in the United States, partnering with our clients to produce unique and exclusive formulations. Our products are always custom formulated and – “never off- the-shelf”.

<b>Client Details</b>	
<b>GENERAL INFORMATION</b>	
Area of site:	25000
Number of employees:	28
Number of working shifts:	1
Operating Hours:	7AM - 3:30PM
Work Days:	Mon-Fri, Sat and Sun when necessary
Total Number of Products:	2
Total Number of Ingredients:	10
<b>FACILITY OVERVIEW</b>	
Risk Assessment	Low Risk
Facility Kind	HPF - Totality
Contaminants	No
Tools	Dedicated
Storage	Segregated
<b>SUPPLIER OVERVIEW</b>	
Supplier1:	DI Water
Supplier2: Sensient	Unipure Blue
Supplier3: West Co Chem	Propylene Glycol
Supplier4: DD Chem Co	Botanistant PF-64
Supplier5: OMYA	Dermacryl C
<b>PRODUCT OVERVIEW</b>	
Product Type:	Cosmetics
Exposure:	Goods are opened in facility
Animal Byproducts:	No
Alcohol (Ethyl):	No
Fillers/Additives (Finished product:)	No
Product Details	

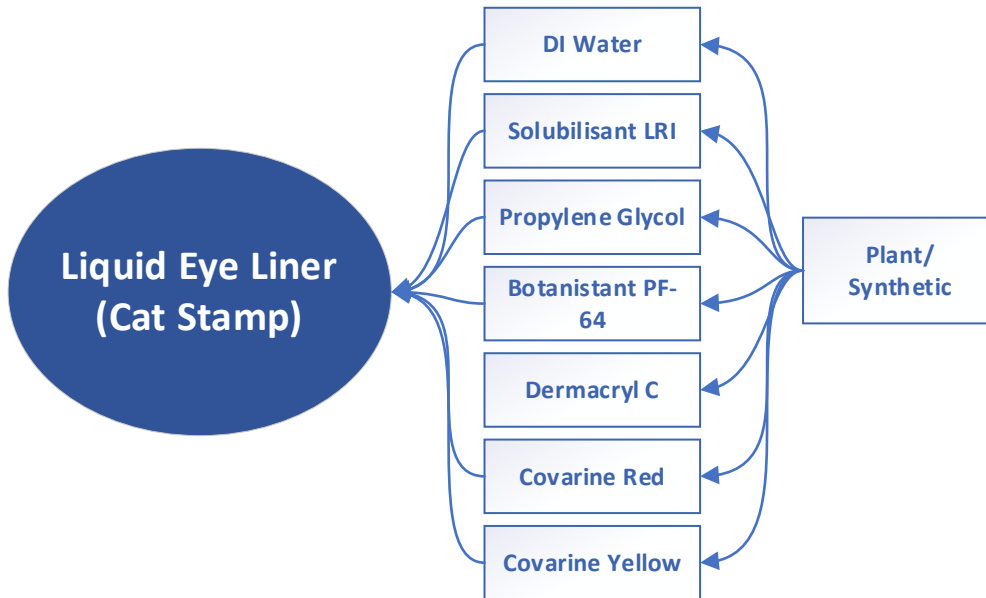

Products for certification	Item Number	Ingredients List
Cat Stamp Eye Liner, Brown	MR1033-CS1	Water, Acrylates Copolymer, Propylene Glycol, PPG-26-Buteth-26, PEG-40 Hydrogenated Castor Oil, Glycerin, Xanthan Gum, Sodium Citrate, Phenoxyethanol, Caprylyl Glycol, Ethylhexylglycerin, Hexylene Glycol
Cat Stamp Eye Liner, Green	MR1033-CS2	Water, Acrylates Copolymer, Propylene Glycol, PPG-26-Buteth-26, PEG-40 Hydrogenated Castor Oil, Glycerin, Xanthan Gum, Sodium Citrate, Phenoxyethanol, Caprylyl Glycol, Ethylhexylglycerin, Hexylene Glycol

## **PRODUCT INFORMATION**

Product name	Client product #	HWW Product ID	Ingredients List
Liquid Eye Liner (Cat Stamp) brown	SO502-098	MR1033-CS1	Water, Acrylates Copolymer, Propylene Glycol, PPG-26-Buteth-26, PEG-40 Hydrogenated Castor Oil, Glycerin, Xanthan Gum, Sodium Citrate, Phenoxyethanol, Caprylyl Glycol, Ethylhexylglycerin, Hexylene Glycol
Liquid Eye Liner (Cat Stamp) green	SO502-086B	MR1033-CS2	Water, Acrylates Copolymer, Propylene Glycol, PPG-26-Buteth-26, PEG-40 Hydrogenated Castor Oil, Glycerin, Xanthan Gum, Sodium Citrate, Phenoxyethanol, Caprylyl Glycol, Ethylhexylglycerin, Hexylene Glycol

## PRODUCT PROFILE

### Liquid Eye Liner (Cat Stamp) brown/green

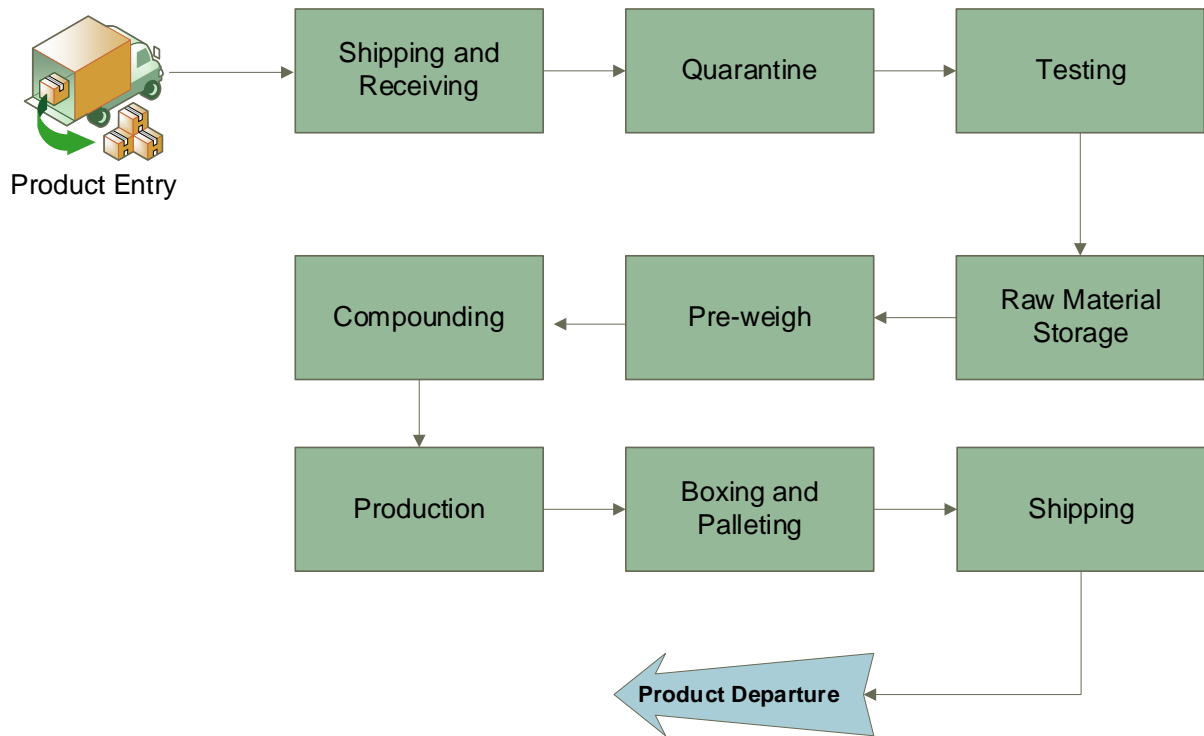

**Liquid Eye Liner (Cat Stamp)** The Cleopatra Cat Eye Stamp is beautifully shaped, compact and delivers a non-toxic and richly pigmented liquid eyeliner. Our revolutionary eyeliner has a precisely angled stamp on one end, a fine-felt tip point on the other and both ends are fed ink simultaneously by an intelligently designed reservoir. The eyeliner is hypoallergenic and dermatologist approved. The stamp is available in two different widths, bold and sleek. The ease of application and perfect results has solidified the 2-in-1 applicator, as one of the best-selling winged eyeliner stamps in America.

Ingredient Status – **Halal** (Aslan)

All of the ingredients are derived from permissible sources. Each supplier of the raw material has signed statements of halal compliance.

Concerns – None

## PROCESSING OVERVIEW

## CLEANING METHOD

### Frequency:

Stainless Steel Mixing and Holding Tanks are cleaned after completion of each batch or phase.

Filling Equipment within 72 hours window, and no more than three consecutive batches of the same product can be passed through the Equipment before cleaning and sanitization is required.

All operating filling equipment is cleaned and sanitized at the end of the working week.

Transfer pumps and Filtering Equipment within 72 hours window, and no more than three consecutive batches of the same product can be passed through.

After any equipment repairs or preventative maintenance, cleaning and sanitization is performed.

**PRODUCT & SUPPLIER ASSESSMENT**

**West Co Chem**

Raw Material	Ingredient description	Status	Reason	Ruling	Concern
Propylene Glycol	Propylene glycol (IUPAC name: propane-1,2-diol) is a synthetic liquid substance that absorbs water.	<b>Pass</b>	No known intoxicating effect	Halal Aslan	None

**Sensient**

Raw Material	Ingredient description	Status	Reason	Ruling	Concern
Solubilisant LRI	Solubilisant LRI is a synergistic non-ionic surfactants mixture.	<b>Pass</b>	No known Intoxicating effect	Halal Aslan	
Covarine Red	Covarine Red WN 3798 is a natural water-based dispersion of Unipure Red LC 388 in a water/glycerin mixture.	<b>Pass</b>	No known Intoxicating effect	Halal Aslan	
Covarine Yellow	Covarine Yellow WN 1798 is a natural water-based dispersion of Unipure Yellow LC 188 in a water/glycerin mixture. It is a new generation of high purity yellow iron oxide.	<b>Pass</b>	No known Intoxicating effect	Halal Aslan	

Covarine Black	Covarine Black WN 9798 is a natural water-based dispersion of Unipure Black LC 988 in a water/glycerin mixture. It is a new generation of high purity black iron oxide.	Pass	No known Intoxicating effect	Halal Aslan	
Unipure Green	Unipure Green LC 788 is a high purity chromium oxide green mineral pigment. This green powder provides outstanding color consistency and excellent dispersibility.	Pass	No known Intoxicating effect	Halal Aslan	
Unipure Blue	Unipure Blue LC 621 is a high purity FD&C Blue No.1 Aluminum cosmetic Lake.	Pass	No known Intoxicating effect	Halal Aslan	

**DD Chem Co**

Raw Material	Ingredient description	Status	Reason	Ruling	Concern
Botanistat PF-64	This proprietary ingredient is based on a balanced blend of highly effective biocide components in an emollient base for optimized preservation in a variety of applications and products.	Pass	No known intoxicating effect	Halal Aslan	

**OMYA**

Raw Material	Ingredient description	Status	Reason	Ruling	Concerns
Dermacryl C	DERMACRYL® C film forming polymer is an innovative film forming polymer technology designed especially for color cosmetics applications.	Pass	Not used in unsafe dosages	Halal Aslan	

## **TESTING METHOD**

The following tests are performed for the production facility: Cleaning Validation, Pesticide Analysis, Microbial, Mycotoxin Analysis.

## **CONCLUSION**

Client was cooperative, transparent and compliant with access to their facility, and provided a virtual tour for the remote audit. All relevant documentation requests were fulfilled. Inspector did not identify any H.A.R.M locations within the facility. All source materials have been analysed during this audit and reviewed. West Coast Cosmetics/Lyda Beauty's manufacturing facility has been deemed to be conducive to maintaining the integrity of a Halal product.

**Based upon this information, the review team hereby certifies both the facility, and all products mentioned in this report to be Halal Certified.**
