### NATURAL STATUS

US FDA and EU do not have a regulatory definition of "natural" that applies to regulated food additive products. Canada has labeling guidelines on "natural" foods (Canadian 2003 Guide to Food Labeling and Advertising – Chapter 4, Section 4.7). We leave to your own good judgment and your own legal counsel, the decision regarding the use of the term "natural" in your advertising or labeling for those products.

### HALAL SUITABILITY

- There is no alcohol used in the process of manufacturing.
- This material does not contain alcohol as one of its components.
- There are no animal products or by-products used as a raw material in manufacturing.
- There are no animal-based enzymes used in the manufacturing of the material.
- The equipment used is not used to manufacture other materials that may contain raw materials of porcine origin.

### FOOD GRADE/ODI/GRAS

This product is not listed in the FDA GRAS Substances Database but has been used for human supplementation in the United States market prior to 1994. We do not make claims of suitability for specific applications and leaves it to customers to determine safe dosages of this material for their end purposes.
