Customer: Driscoll Foods Date: 1/4/24

Reference: Letter of Continuing Guarantee

This letter is to guarantee that all products Driscoll Foods purchases from Port Royal Sales (or through any of Port Royal's Distribution Networks) will not be misbranded or adulterated. Port Royal strictly adheres to all policies and practices to ensure the production of safe and quality food products. All Premium Brand Canned Fruits, Premium Brand Vegetables, Golden Harvest Brand Vegetables (and all associated private label partners) that we import or procure domestically are subject to both examination from the US Customs Service and the Food and Drug Administration. The tuna that we import are free of scombrototoxin. All products that we import are subject to FDA inspection and more than 40 percent of our products are graded by USDA to insure our packers are meeting our rigorous quality requirements.

We also have a strict policy concerning the use of GMO's (genetically modified organisms) and will not buy from any packer that uses GMO's in the production of their products. We also do not buy, sell or stock any food item that contains PHO's (Partially Hydrogenated Oils), you will never see PHO's as an ingredient in any item we carry, supply or sell.

As importers and distributors we understand the importance of food safety and we make sure all the packers we buy from have yearly third party audits to substantiate that they are in compliance with all food safety protocols required by our USFDA. Our Chief Operating Officer Mr. Wayne Wellner has also been trained in HACCP compliance and food safety issues and visits our packers at least one time a year to insure all required food safety protocols are being followed.

We take the business of food safety very seriously and it shows by our long tenure in the business and our excellent record with both the FDA and USDA, and of course our most demanding evaluators you our loyal customer.

This guarantee is continuing and shall be in full force until revoked in writing.

Sincerely,

Wayne Wellner, COO
