

## **SOURCE AND PROCESS STATEMENT**

Grain Neutral Spirits (GNS) products  
(PPS185, Rev. 1.6, 08/21, CWB)

This statement applies to GNS supplied by Greenfield Global USA Inc. ("Product").

The raw materials from which the Product is produced are cereal grains:

- The principal raw material is corn (the part of the corn plant used is the kernel, the common name is Maize, and the botanical name is *Zea Mays*);
- Occasionally, milo can be used (the part of the milo plant used is the kernel, and its common name is *Sorghum bicolor* L.).
- Wheat starch may also be processed with the grains (the part of the wheat plant used is the kernel, and its common name is *Triticum aestivum*).

The Products are produced by combining ethyl alcohol distilled from the above and potable water.
