# COMPANY BACKGROUND

**Halal Watch World LLC** is a halal certification limited liability corporation based in the state of New York, and has operated in the certification industry since 1990. HWW is an organization that stands upon the trust of the Muslim public, and believes that it is imperative that their trust never be jeopardized. We maintain standards to the highest degree of scrutiny and perform regular audits for the protection of our constituents.

Halal Watch World understands that halal certification is a communal obligation (فرض كفاية), meaning, at least one person of the community must uphold it. If no one takes up this responsibility, the entire community bears a burden of sin. Therefore, we must be extra diligent with this effort. We realize the seriousness of the matter and understand the dire consequences of not filling this duty to the fullest capacity. God explains this to us in the Holy Quran by His statement:

***“And say not concerning that which your tongue says falsely: 'This is Halal and this is Haram,' so as to invent lies against Allah. Verily, those who invent lies against Allah will never prosper...A passing brief enjoyment (will be theirs), but they will have a painful torment.”***

*[Al Quran] 16:116-117*

HWW ensures to the best of its ability a high level of authenticity is upheld. This allows them to gain the trust of the Muslim community, and garner strong relationships with companies who produce, process, and distribute halal products at all levels. By this, they are able to offer halal producing company's guidance and consultation on the direction of their processes and products, while ensuring that Islamic dietary standards are always maintained and monitored. Muslims can use this information in order to make well informed decisions about what they choose to eat.

**Legal Filings:** Halal Watch World holds registered trademark number 4728733, and Department of State (New York) number 4814343. Halal Watch World is also a registered halal certifying organization with The Department of Agriculture and Markets of New York State (See supporting documentation).

We begin in the name of God SWT

# CERTIFICATION CONSIDERATIONS

There are 4 main factors taken into consideration when determining the halal status of a product:

## **Is the product/ingredient Halal Aslan (by default)?**

If the product is Halal by default, then there will be no ingredient investigation conducted. An audit of the HPF (Halal Product Facility), facility related documents and product identification documentation will however, still be required.

## **Is the product/ingredient Halal certified via another organization?**

If another organization certifies the product as Halal, then it is incumbent upon us to perform a *tahqeeq* (verification) certification of the establishment. We must be able to ascertain that the certifying body is competent and capable of determining the status of such products. In the event that we are unable to gain this information, our organization must inspect the location of production before certifying.

## **What is the Risk Assessment of the Facility?**

Each HPF (Halal Product Facility) must be assessed and assigned an appropriate level of risk. Each facility is graded according to assessed risk. As risk increases, guidelines, restrictions, and measures become more stringent. Risk is determined according to the products present in the facility, product and process management, and the equipment utilized for processing. Any product/s made with or derived from the items mentioned below would be considered Haram:

1. Human derived ingredients
2. Pork
3. Donkey (excluding the Onager)
4. Animals with fangs or talons (Carnivorous)  
(Excluding Hyena and Fox according to school of thought)
5. Animals not slaughtered according to Islamic ritual rites
6. Carrion
7. All forms of filth (Najis) i.e. Urine, Excrement, Blood, Pus, Vomit, etc
8. Insects (other than locusts)
9. Animals fed with more than 50% of any of the above without being fed on a pure diet for a stipulated number of days (The Jallaalah)
10. Any intoxicants
11. Anything toxic or harmful to the body (such as cigarettes)
12. Anything processed, made, produced, manufactured, and/or stored using utensils, equipment, and/or machinery in contact with

any of the above that have not been cleansed according to standards which remove contaminants.

### **HiRF: High Risk Facility**

Any facility that utilizes item/s listed above or a derivative thereof within the HPF and processes both halal and haram products using indifferent tools, machinery, or utensils. Thus, HiRF's by nature involve contaminants in some way in its processing.

### **MeRF: Medium Risk Facility**

Any facility that processes both halal and haram products using segregated tools, machinery, or utensils to the exclusion of items listed above. Facilities that process any of these items, even if segregation methods are employed, are to be deemed HiRF's.

### **LoRF: Low Risk Facility**

Any facility that does not process haram products on or inside of the premises.

As mentioned earlier, in relation to each risk level there are guidelines, restrictions and measures in place for the avoidance of contamination. Before any facility or any product made in said facility can be considered Halal suitable or certified Halal, these guidelines will have to be strictly adhered to.

Regarding contamination, products cannot be cooked upon or within the same utensils without proper cleansing. This means that any liquid substance that interacts with non-halal products becomes contaminated. This includes oil, and other wet cooking surfaces. Thus, if a vat of oil is used to cook non-halal products (which is considered as filth), it cannot be used to cook Halal products without contaminating it.

## **Are there any contents in the product that contain impermissible ingredients?**

We refer to the list of impermissible consumables on the previous pages. If the product under audit is found to contain any of the ingredients on the ban list, these products cannot be considered as halal, unless said ingredients are replaced with halal suitable alternatives.

# Client Details: America Medic & Science (AMS), LLC

## FACILITY PROFILE

America Medic & Science AMS is an American nutraceutical company established in 2007 and headquartered in Seattle, Washington. We manufacture and distribute high quality, organic natural products and dietary supplements for all individuals and age groups. The leadership of our management team, which has a combined 3 decades of experience in pharmaceuticals, has led us to become known pioneers in the industry. Also, our dedication to producing high quality products and providing cutting-edge innovation, has allowed us to rapidly expand our scope of business across all major continents and partner with the top global figures in the industry to deliver our innovative products to consumers.

Xtra D3	MR88_RM2114

## **PRODUCT PROFILE**

### **Cavintona Advanced**

#### **Cavintona Advanced (MR88\_RM2110)**

AMS® Cavintona Advanced supplement was formulated to: Boost memory Improve brain function Improve cognition Improve hearing function Enhance visual function Improves cardiovascular function

- **INGREDIENTS:**

- INGREDIENT 10404 | Choline Bitartrate (Asiamerica Group Inc)
- INGREDIENT 10405 | Ginkgo Biloba (Leaf Extract) (Jiaherb)
- INGREDIENT 10406 | Vinpocetine (Voacanga Africana) (seed) (Jiaherb)
- INGREDIENT 10407 | Acetyl-L-Carnitine (Nutravative: China DA Pharmaceuticals Co. Ltd)
- INGREDIENT 10408 | Lecithin (Matrix Life Science Private Limited)
- INGREDIENT 10409 | Titanium Dioxide (CapsCanada K-Caps)
- INGREDIENT 10410 | Hypromellose (CapsCanada K-Caps)
- INGREDIENT 10411 | Stearic Acid (Sergeants Nutra)
- INGREDIENT 10412 | Silicon Dioxide (Sergeants Nutra)
- INGREDIENT 10413 | Magnesium Stearate (Sergeants Nutra)

## **PRODUCT PROFILE**

### **Cavintona**

#### **Cavintona (MR88\_RM2111)**

AMS® Cavintona Vinpocetine 10 mg supplement was formulated to: Boost memory Improve brain function Improve cognition Improve hearing function Enhance visual function Improves cardiovascular function

- **INGREDIENTS:**

- INGREDIENT 10414 | Vinpocetine (Jiaherb)
- INGREDIENT 10415 | Microcrystalline Cellulose (Sergeants Nutra)
- INGREDIENT 10416 | Hypromellose (CapsCanada K-Caps)
- INGREDIENT 10417 | Stearic Acid (Sergeants Nutra)
- INGREDIENT 10418 | Titanium Dioxide (CapsCanada K-Caps)
- INGREDIENT 10419 | Silicon Dioxide (Sergeants Nutra)
- INGREDIENT 10420 | Magnesium Stearate (Sergeants Nutra)

## **PRODUCT PROFILE**

### **Immunexa**

#### **Immunexa (MR88\_RM2112)**

AMS Immunexa is a 7 in 1 immunity booster blend. The formula features Echinacea and Elderberry in addition to powerful antioxidants known to: Boost the immune system Protect the body from the free radicals

- **INGREDIENTS:**

- INGREDIENT 10421 | Vitamin A (as Beta-Carotene) (Asiamerica Group Inc)
- INGREDIENT 10422 | Vitamin C (Ascorbic Acid) (GWI Green Wave Ingredients)
- INGREDIENT 10423 | Vitamin D3 (Taizhou Hisound Pharmaceutical Co., Ltd)
- INGREDIENT 10424 | Zinc (as Zinc Gluconate) (Asiamerica Group Inc)
- INGREDIENT 10425 | Selenium (as Selenomethionine) (Asiamerica Group Inc)
- INGREDIENT 10426 | Echinacea Purpurea Extract (Flower) (4% Polyphenols) (Stryka Botanics)
- INGREDIENT 10427 | Elderberry Fruit 4:1 Extract (Sambucus nigra) (Jiaherb)
- INGREDIENT 10428 | Vegetable Cellulose (Capsule) (CapsCanada K-Caps)
- INGREDIENT 10429 | Magnesium Stearate (Sergeants Nutra)
- INGREDIENT 10430 | Silicon Dioxide (Sergeants Nutra)
- INGREDIENT 10431 | Titanium Dioxide (CapsCanada K-Caps)
- INGREDIENT 10432 | Microcrystalline Cellulose (Sergeants Nutra)

## **PRODUCT PROFILE**

### **N-A-C (N-Acetyl-L-Cysteine)**

#### **N-A-C (N-Acetyl-L-Cysteine) (MR88\_RM2113)**

N-A-C (N-Acetyl-L-Cysteine) is formulated to: Provide powerful antioxidant amino acid Support liver health

- **INGREDIENTS:**

- INGREDIENT 10433 | NAC (N-Acetyl-L-Cysteine) (Asiamerica Group Inc)
- INGREDIENT 10434 | Vegetable Cellulose (CapsCanada K-Caps)
- INGREDIENT 10435 | Microcrystalline Cellulose (Sergeants Nutra)
- INGREDIENT 10436 | Magnesium Stearate (Sergeants Nutra)
- INGREDIENT 10437 | Silicon Dioxide (Sergeants Nutra)
- INGREDIENT 10438 | Titanium Dioxide (CapsCanada K-Caps)
- INGREDIENT 10439 | Calcium Carbonate (J. M. Huber Corporation)

## **PRODUCT PROFILE**

### **Xtra D3**

#### **Xtra D3 (MR88\_RM2114)**

AMS® Xtra D3 was formulated to help: Protect and support bones Support immune system  
Enhance calcium absorption

- **INGREDIENTS:**

- INGREDIENT 10440 | Vitamin D3 (Taizhou Hisound Pharmaceutical Co., Ltd)
- INGREDIENT 10441 | Soybean Oil (Jiaherb)
- INGREDIENT 10442 | Gelatin (Bovine) (Gelita)

## VENDOR ASSESSMENT
