# COMPANY BACKGROUND

**Halal Watch World LLC** is a halal certification limited liability corporation based in the state of New York, and has operated in the certification industry since 1990. HWW is an organization that stands upon the trust of the Muslim public, and believes that it is imperative that their trust never be jeopardized. We maintain standards to the highest degree of scrutiny and perform regular audits for the protection of our constituents.

Halal Watch World understands that halal certification is a communal obligation (فرض كفاية), meaning, at least one person of the community must uphold it. If no one takes up this responsibility, the entire community bears a burden of sin. Therefore, we must be extra diligent with this effort. We realize the seriousness of the matter and understand the dire consequences of not filling this duty to the fullest capacity. God explains this to us in the Holy Quran by His statement:

***“And say not concerning that which your tongue says falsely: 'This is Halal and this is Haram,' so as to invent lies against Allah. Verily, those who invent lies against Allah will never prosper...A passing brief enjoyment (will be theirs), but they will have a painful torment.”***

*[Al Quran] 16:116-117*

HWW ensures to the best of its ability a high level of authenticity is upheld. This allows them to gain the trust of the Muslim community, and garner strong relationships with companies who produce, process, and distribute halal products at all levels. By this, they are able to offer halal producing company's guidance and consultation on the direction of their processes and products, while ensuring that Islamic dietary standards are always maintained and monitored. Muslims can use this information in order to make well informed decisions about what they choose to eat.

**Legal Filings:** Halal Watch World holds registered trademark number 4728733, and Department of State (New York) number 4814343. Halal Watch World is also a registered halal certifying organization with The Department of Agriculture and Markets of New York State (See supporting documentation).

We begin in the name of God SWT

# CERTIFICATION CONSIDERATIONS

There are 4 main factors taken into consideration when determining the halal status of a product:

## **Is the product/ingredient Halal Aslan (by default)?**

If the product is Halal by default, then there will be no ingredient investigation conducted. An audit of the HPF (Halal Product Facility), facility related documents and product identification documentation will however, still be required.

## **Is the product/ingredient Halal certified via another organization?**

If another organization certifies the product as Halal, then it is incumbent upon us to perform a *tahqeeq* (verification) certification of the establishment. We must be able to ascertain that the certifying body is competent and capable of determining the status of such products. In the event that we are unable to gain this information, our organization must inspect the location of production before certifying.

## **What is the Risk Assessment of the Facility?**

Each HPF (Halal Product Facility) must be assessed and assigned an appropriate level of risk. Each facility is graded according to assessed risk. As risk increases, guidelines, restrictions, and measures become more stringent. Risk is determined according to the products present in the facility, product and process management, and the equipment utilized for processing. Any product/s made with or derived from the items mentioned below would be considered Haram:

1. Human derived ingredients
2. Pork
3. Donkey (excluding the Onager)
4. Animals with fangs or talons (Carnivorous)  
(Excluding Hyena and Fox according to school of thought)
5. Animals not slaughtered according to Islamic ritual rites
6. Carrion
7. All forms of filth (Najis) i.e. Urine, Excrement, Blood, Pus, Vomit, etc
8. Insects (other than locusts)
9. Animals fed with more than 50% of any of the above without being fed on a pure diet for a stipulated number of days (The Jallaalah)
10. Any intoxicants
11. Anything toxic or harmful to the body (such as cigarettes)
12. Anything processed, made, produced, manufactured, and/or stored using utensils, equipment, and/or machinery in contact with

any of the above that have not been cleansed according to standards which remove contaminants.

### **HiRF: High Risk Facility**

Any facility that utilizes item/s listed above or a derivative thereof within the HPF and processes both halal and haram products using indifferent tools, machinery, or utensils. Thus, HiRF's by nature involve contaminants in some way in its processing.

### **MeRF: Medium Risk Facility**

Any facility that processes both halal and haram products using segregated tools, machinery, or utensils to the exclusion of items listed above. Facilities that process any of these items, even if segregation methods are employed, are to be deemed HiRF's.

### **LoRF: Low Risk Facility**

Any facility that does not process haram products on or inside of the premises.

As mentioned earlier, in relation to each risk level there are guidelines, restrictions and measures in place for the avoidance of contamination. Before any facility or any product made in said facility can be considered Halal suitable or certified Halal, these guidelines will have to be strictly adhered to.

Regarding contamination, products cannot be cooked upon or within the same utensils without proper cleansing. This means that any liquid substance that interacts with non-halal products becomes contaminated. This includes oil, and other wet cooking surfaces. Thus, if a vat of oil is used to cook non-halal products (which is considered as filth), it cannot be used to cook Halal products without contaminating it.

## **Are there any contents in the product that contain impermissible ingredients?**

We refer to the list of impermissible consumables on the previous pages. If the product under audit is found to contain any of the ingredients on the ban list, these products cannot be considered as halal, unless said ingredients are replaced with halal suitable alternatives.

# Client Details: VitaCare Pharma LLC

## FACILITY PROFILE

VitaCare Pharma is a leading contract manufacturer of vitamins and nutritional supplements for domestic and international clients.

<b>Client Details</b>	
<b>GENERAL INFORMATION</b>	
Total Number of Products:	4
Total Number of Ingredients:	86
<b>SUPPLIER OVERVIEW</b>	
Supplier 1:	Zhejiang Jiangshan Bee(Asiamerica)
Supplier 2:	Ningxia Qiyuan Pharmaceutical Co.(Asiamerica)
Supplier 3:	Xiamen Kingdomway Biotech
Supplier 4:	Quanzhou LN Biochemical(Asiamerica)

## **PRODUCT PROFILE**

### **UTICYST-30ct**

#### **UTICYST-30ct (MR161\_NU2390)**

Dietary Supplement

##### **INGREDIENTS:**

- INGREDIENT 12396 | 41635 Cranberry (Vaccinium macrocarpon) (Fruit) Powder (Xian Longze Bio.( GWI))
- INGREDIENT 12397 | 41429 D-Mannose 98% (Fifth Nutrisupply)
- INGREDIENT 12398 | 41511 Inulin (FOS) Fiber 90% (from Jerusalem Artichoke Root) (Shaanxi Jiahe Phytochem Co., Ltd.)
- INGREDIENT 12399 | 61013 Lactobacillus plantarum 400 Bil. CFU/g (IFF (Danisco USA))
- INGREDIENT 12400 | 61014 Lactobacillus paracasei 400 Bil. CFU/g (IFF (Danisco USA))
- INGREDIENT 12401 | 41035 Lactobacillus Acidophilus 200 Bil CFU/g (IFF (Danisco USA))
- INGREDIENT 12402 | 61012 Lactobacillus casei 300 Bil. CFU/g (IFF (Danisco USA))
- INGREDIENT 12403 | 61008 Lactobacillus gasseri 200 Bil. CFU/g (IFF (Danisco USA))
- INGREDIENT 12404 | 61021 Bifidobacterium lactis 500B CFU/g (IFF (Danisco USA))
- INGREDIENT 12405 | 31082 Silicified Microcrystalline Cellulose 102 (NutraSolv™ 90) (JRS Pharma(markan Global))
- INGREDIENT 12406 | 31001 Cellulose BH 40 (J.Rettenmaier (Essex Food))
- INGREDIENT 12407 | 31004 Croscarmellose Sodium (JRS Pharma(markan Global))
- INGREDIENT 12408 | 31006 Stearic Acid (Vegetable Grade) (Lipidichem SDN BHD (Generichem))
- INGREDIENT 12409 | 31002 SILICON DIOXIDE (Asiamerica Group Inc)
- INGREDIENT 12410 | 31003 Magnesium Stearate (Vegetable Grade) (Nitika (Generichem))
- INGREDIENT 12412 | 31002 SILICON DIOXIDE (American Int. Chemicals)

## **PRODUCT PROFILE**

### **NEURUFLEX TABLETS-30ct**

#### **NEURUFLEX TABLETS-30ct (MR161\_NU2391)**

Dietary Supplement with Vitamins

##### **INGREDIENTS:**

- INGREDIENT 12388 | 41050 Thiamine Mononitrate (Vitamin B1 - 80%) (Jiangxi Tianxin Pharmaceutical (GWI))
- INGREDIENT 12389 | 61039 Pyridoxine HCl (Vitamin B6-82%) DC 98% (Huazhong Pharmaceutical Co., Ltd.(Asiamerica))
- INGREDIENT 12390 | 41040 Vitamin B12 (Cyanocobalamin) 1% Trituration (Hebei Huarong Pharma (Asiamerica))
- INGREDIENT 12391 | 31005 Microcrystalline Cellulose (MCC) 102 (Sigachi( Independent Chemicals))
- INGREDIENT 12392 | 31004 Croscarmellose Sodium (JRS Pharma(markan Global))
- INGREDIENT 12393 | 31006 Stearic Acid (Vegetable Grade) (Lipidichem SDN BHD (Generichem))
- INGREDIENT 12394 | 31002 Silicon Dioxide (Asiamerica Group)
- INGREDIENT 12395 | 31003 Magnesium Stearate (Vegetable Grade) (Nitika (Generichem))
- INGREDIENT 12411 | 41050 Thiamine Mononitrate (Vitamin B1 -80%) (Huazhong Pharmaceutical Co., Ltd.(Asiamerica))
- INGREDIENT 12413 | 31002 SILICON DIOXIDE (American Int. Chemicals)

## **CLEANING METHOD**

### Description:

#### Procedure:

a. Cleaning Procedure for RM dispensing room, granulation room, processing & blending rooms, compression rooms, encapsulation room, coating room and packaging room:

Between different lots of same product:

- i. After each lot of the same product, the room is cleaned for extraneous powder, as well as any labeling material that may be left over from the last processed batch.
- ii. Use a vacuum cleaner and clean lint free cloth soaked in warm water for cleaning the walls, floors and doors.
- iii. Document the Type of cleaning as "PARTIAL" and cleaning time details in the room-equipment usage log book.

Between Different Products:

- i.
- ii. Clean the room thoroughly by first sweeping or vacuuming the entire room for all powder and removing all empty containers and all labeling materials of previous batch.

Clean all countertops, scale platforms, steps for blenders, ledges, walls, floors and doors with clean lint free cloth soaked with warm water.

- iii. If necessary, sweep/wipe walls, doors by using effective disinfectant/sanitizer
- iv.

v. solution by preparing ¼ cup-2 oz of Lysol® and ½ cup -4 oz of Clorox® bleach in 1 gallon of warm water.

If there is any other equipment in the room, ensure that it is cleaned by its respective cleaning procedure.

Document the Type of cleaning as "FULL" and cleaning time details in the room-equipment usage log book....

Frequency: After every batch.

## VENDOR ASSESSMENT
