

# Halal Nail Polish Production Flow – Guangzhou NEWNAIL COSMETICS CO.,LTD

## Start

↳ Begin production cycle for halal-certified nail polish (HP)

## Raw Material Receiving

- ↳ Ingredients arrive from suppliers
  - ✓ Confirm all ingredients are halal compliant
  - ✓ Separate storage for ingredients

## Ingredient Verification

- ↳ Check each ingredient:
  - Animal-free?
  - Alcohol-free?

## Mixing & Production

- ↳ Transfer ingredients to GMP-compliant mixing area
  - ✓ Use clean, halal-only equipment
  - ✓ Record batch code

## Filling & Capping

- ↳ Fill bottles using sanitized machines
  - ✓ Use new caps/brushes only
  - ✓ Assign traceable batch ID

## Labeling

- ↳ Apply verified halal label
  - ✓ Confirm proper expiration and ingredients listed

## Quality Control

- ↳ Final inspection
  - ✓ No leakage, correct labeling, color match

## Halal Storage Area

↳ Store sealed products properly

## Shipping/Dispatch

- ↳ Prepare for fulfillment
  - ✓ Labels rechecked
  - ✓ Final check before leaving facility

## Logging Documentation

- ↳ Record:
  - Supplier name

- Ingredient
- Expiry date
- Batch and unit count

**End**

↳ Product ready for sale and compliant with halal standards
