

# Al Noor Farm Pest Control Program

## 1. Introduction

Al Noor Farm is committed to maintaining a clean and safe environment for the production of halal meat products. To achieve this, we have implemented a comprehensive pest control program in collaboration with Fox Pest Control. This document outlines the pest control measures in place, the current status of the program, and the standard operating procedures (SOP) for internal pest control, if applicable.

## 2. Pest Control Program

### 2.1 Program Overview

- Pest Control Provider: Fox Pest Control Buffalo, NY 716-229-5570
- Scope: The pest control program covers all areas of the farm, including animal housing, feed storage, processing facilities, and waste disposal areas.
- Frequency: Regular inspections and treatments are conducted on a monthly basis, with additional treatments as needed.

### 2.2 Pest Control Measures

- Inspection: Regular inspections are conducted to identify potential pest entry points, nesting sites, and signs of pest activity.
- Treatment: Appropriate treatments are applied to control and eliminate pests. This includes the use of traps, baits, and environmentally friendly pesticides.
- Monitoring: Continuous monitoring is conducted to assess the effectiveness of the treatments and to detect any new pest activity.
- Documentation: All pest control activities are documented, including inspection reports, treatment records, and monitoring results.

## 3. Current Status

### 3.1 Recent Results

- Current Status: The pest control program is current, with the most recent inspection and treatment conducted within the last three months.
- Results: The results of the most recent inspection and treatment passed, indicating no significant pest issues.

## 4. Internal Pest Control SOP (If Applicable)

### 4.1 Standard Operating Procedures (SOP)

#### 4.1.1 Purpose

The purpose of this SOP is to outline the procedures for conducting internal pest control at Al Noor Farm to ensure a pest-free environment.

#### 4.1.2 Responsibilities

- Pest Control Team: The designated pest control team is responsible for implementing and maintaining

the pest control program.

- Team Leader: The team leader oversees the pest control activities, ensures compliance with the SOP, and maintains documentation.

#### **4.1.3 Equipment and Materials**

- Inspection Tools: Flashlights, magnifying glasses, and inspection mirrors.
- Treatment Tools: Traps, baits, sprayers, and environmentally friendly pesticides.
- Protective Gear: Gloves, masks, and protective clothing.

#### **4.1.4 Procedures**

##### **1. Inspection**

- Conduct regular inspections of all areas, including animal housing, feed storage, processing facilities, and waste disposal areas.
- Identify potential pest entry points, nesting sites, and signs of pest activity (e.g., droppings, gnaw marks, nests).

##### **2. Treatment**

- Apply appropriate treatments to control and eliminate pests. This may include setting traps, placing baits, and applying pesticides.
- Follow all safety guidelines and manufacturer instructions when using pesticides.

##### **3. Monitoring**

- Continuously monitor treated areas to assess the effectiveness of the treatments.
- Check traps and baits regularly and replace them as needed.

##### **4. Documentation**

- Maintain detailed records of all pest control activities, including inspection reports, treatment records, and monitoring results.
- Document any pest sightings, actions taken, and outcomes.

##### **5. Review and Improvement**

- Regularly review the pest control program and SOP to identify areas for improvement.
- Update the SOP as needed to incorporate new techniques and best practices.

##### **5. Conclusion**

Al Noor Farm is dedicated to maintaining a pest-free environment to ensure the safety and quality of our halal meat products. Our pest control program, in collaboration with Fox Pest Control, is current and effective. If pest control is performed internally, our SOP ensures consistent and thorough pest management practices.
