

CAP'T LOUI

Product Process Flow

Location: _____	Prepared by: _____	Effective date: _____
-----------------	--------------------	-----------------------

This flow shows how products move through the facility — station by station, from raw delivery to the customer.

Process notes

Raw products are received from approved suppliers and verified against supplier documentation and temperature standards at receiving. Product is stored in approved, labeled containers, rotated on a first-in, first-out (FIFO) basis, and prepped and cooked using sanitized utensils and equipment, maintaining product integrity from delivery through service.

Approved by (Person in Charge): _____ Date: _____
