SECTION 4. FIRST AID MEASURES

• Eye Contact : In case of eye contact, immediately rinse with clean water for 10-20 minutes. Retract eyelids often. Obtain emergency medical attention.
• Skin Contact: Wash skin thoroughly with mild soap/water. Flush w/lukewarm water for 5 minutes. Seek medical attention if ill effect or irritation develops.
• Inhalation: If overcome by exposure, remove victim to fresh air immediately. Give oxygen or artificial respiration as needed. Obtain emergency medical attention. Prompt action is essential.
• Ingestion : If large quantity swallowed, give lukewarm water (pint) if victim completely conscious/alert.
Do not induce vomiting/risk of damage to lungs exceeds poisoning risk. Obtain emergency medical attention

Flammable/Explosive limits-lower %: Not available
Flammable/Explosive limits-upper %: Not available
Extinguishing media: Foam, dry chemical or carbon dioxide.
Special fire fighting procedures: Fire fighters should be equipped with self-contained breathing apparatus to protect against potent ally toxic and irritating fume
Hazardous Decomposition : Thermal decomposition could produce carbon monoxide ,unidentified organic compounds.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Spill and leak Procedures: Shut off ignite sources stop leak if you can do it without risk for small liquid spills, take up with sand or other absorbent material for large spills dike far ahead of spill for later disposal no smoking flares of flames in hazard area keep unnecessary people away
Environmental protection : Prevent diffusion, Prevent entry into the sewage system.

SECTION 7. HANDLING AND STORAGE

Handling : Ensure efficient exhaust ventilation in the working area.
Storage : Keep container tightly closed and store between 5—40°C. Keep containers tightly closed when not in use.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION
