S. Michael Burchell

Sr. Director Global Corporate Quality

Subject: Halal Statement

March, 2022

To: All Domino Foods, Inc. Valued Customers:

This letter is written in response to customer inquiries regarding the Halal certified status of the additives and ingredients used in the manufacture of the refined sugar, liquid sugar, raw cane sugar, organic sugar, rice and rice flour products, barley malt extract (dry and liquid), invert sugar, tapioca syrup, brown rice syrup, fondants, sugarcane molasses (dry and liquid), honey (dry and liquid), refiners' syrup, flavor and texture modifiers, organic agave nectar syrups and co-crystallized products distributed by Domino Foods, Inc.

This will certify that none of the products specified above contain natural L-Cysteine extracted from human hair or feathers, animal fats and/or extracts, bloods of any origin, blood plasma, pork and/or other meat by-products.

Non-organic products do not contain ethyl alcohol / ethanol but a very limited quantity of isopropyl alcohol (2-propanol), is used as a seed carrier during our batch crystallization operation at most locations. None remains detectable in any of the non-organic final products we manufacture.

Organic sugar products do use ethyl alcohol / ethanol as a seed carrier during our batch crystallization operation but none remains detectable in any of the final organic sugar products we manufacture.

The equipment used for the manufacturing, filling and packing of these products is not used in the manufacturing, filling or packing of products of animal origin or products containing ingredients of animal origin.

We trust this information is sufficient. Should you require additional information, please feel free to contact us at QualityDocs-NA@asr-group.com.

Sincerely,

S. Michael Burchell
Senior Director Global Corporate Quality
for ASR Group
