# COMPANY BACKGROUND

**Halal Watch World LLC** is a halal certification limited liability corporation based in the state of New York, and has operated in the certification industry since 1990. HWW is an organization that stands upon the trust of the Muslim public, and believes that it is imperative that their trust never be jeopardized. We maintain standards to the highest degree of scrutiny and perform regular audits for the protection of our constituents.

Halal Watch World understands that halal certification is a communal obligation (فرض كفاية), meaning, at least one person of the community must uphold it. If no one takes up this responsibility, the entire community bears a burden of sin. Therefore, we must be extra diligent with this effort. We realize the seriousness of the matter and understand the dire consequences of not filling this duty to the fullest capacity. God explains this to us in the Holy Quran by His statement:

***“ And say not concerning that which your tongue says falsely: 'This is Halal and this is Haram,' so as to invent lies against Allah. Verily, those who invent lies against Allah will never prosper...A passing brief enjoyment (will be theirs), but they will have a painful torment.”***

*[Al Quran] 16:116-117*

HWW ensures to the best of its ability a high level of authenticity is upheld. This allows them to gain the trust of the Muslim community, and garner strong relationships with companies who produce, process, and distribute halal products at all levels. By this, they are able to offer halal producing company's guidance and consultation on the direction of their processes and products, while ensuring that Islamic dietary standards are always maintained and monitored. Muslims can use this information in order to make well informed decisions about what they choose to eat.

**Legal Filings:** Halal Watch World holds registered trademark number 4728733, and Department of State (New York) number 4814343. Halal Watch World is also a registered halal certifying organization with The Department of Agriculture and Markets of New York State (See supporting documentation).

We begin in the name of God SWT

# CERTIFICATION CONSIDERATIONS

There are 4 main factors taken into consideration when determining the halal status of a product:

## **1. Is the product/ingredient Halal Aslan (by default)?**

If the product is Halal by default, then the location it is harvested, produced, or manufactured in, even if done so by a non-Muslim, is not necessary to inspect.

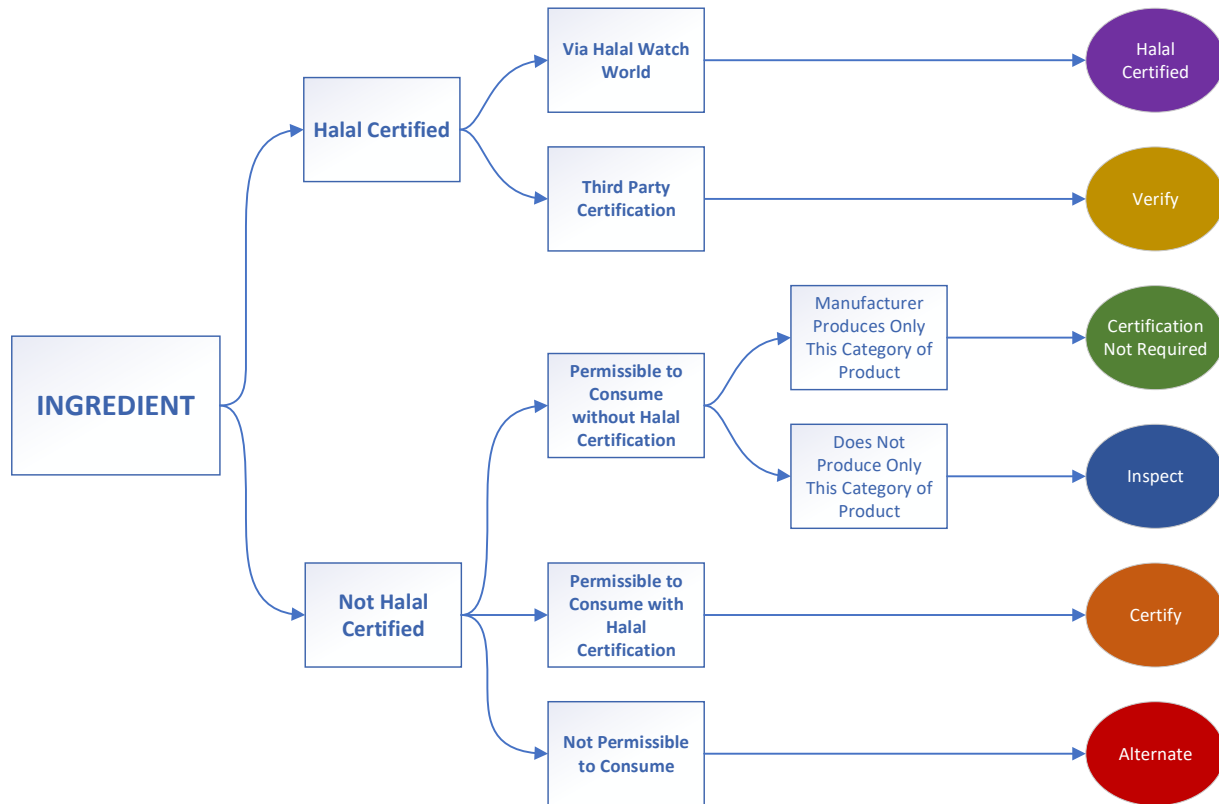

## **2. Is the product/ingredient Halal certified via another organization?**

If another organization certifies the product as Halal, then it is incumbent upon us to perform a *tahqeeq* (verification) certification of the establishment. We must be able to ascertain that the certifying body is competent and capable of determining the status of such products. In the event that we are unable to gain this information, our organization must inspect the location of production before certifying.

## **3. Are there any impermissible ingredients being produced in the same facility?**

As is the norm in Muslim minority societies, manufacturers produce both Halal and Non-Halal products in the same facilities. If other non-Halal items are produced in the same facility, an inspection may be required. In the event that an inspection is not possible, Halal Watch World reserves the right to utilize other forms of off-site audit procedures requiring documentation and the like in order to determine the facilities halal production capabilities. It is generally required for us to determine that the manufacturer prevents the following:

1. Product Contamination
2. Cleaning Method fulfils Islamic requirements
3. Separate storage locations between Halal and non-Halal products, or preventative measures are in place to remove the possibility of mislabelling
4. Halal certified label is visible either on the box or the product
5. Halal certificate from source meat supplier is valid

Regarding contamination, products cannot be cooked upon or within the same utensils without proper cleansing. This means that any liquid substance that interacts with non-halal products becomes contaminated. This includes oil, and other wet cooking surfaces. Thus, if a vat of oil is used to cook non-halal products (which is considered as filth), it cannot be used to cook Halal products without contaminating it.

#### 4. Are there any contents in the product that contain impermissible ingredients?

We refer to the list of impermissible consumables on the previous pages. If the product under audit is found to contain any of the ingredients on the ban list, these products cannot be considered as halal.

## PRODUCT PROFILE

### CBD Oils – All Flavors & Sizes

#### **All CBD Oils** (Item #'s 800161, 800162, 800166, 800167, 800156, 800157)

A high-quality CBD isolate combined with essential oils from Young Living. It provides all of the benefits of pure, potent CBD combined with the best essential oils in the marketplace.

#### All Ingredients – **Halal** (Aslan)

All of the ingredients are derived from permissible sources. Each supplier of the raw material has signed statements of halal compliance.

Concerns – CBD comes from the cannabis plant family, which naturally contains Tetrahydrocannabinol (THC). THC is the principal psychoactive constituent of cannabis, which is impermissible to utilize due to the intoxicating effect on humans. This oil does not contain any THC, which is tested at third party labs for verification. Therefore, CBD in this product does carry any intoxicating properties when utilized.

## **Natures Ultra 50g Muscle Rub – All Sizes**

### **All Muscle Rubs** (Item #'s 800181, 800182)

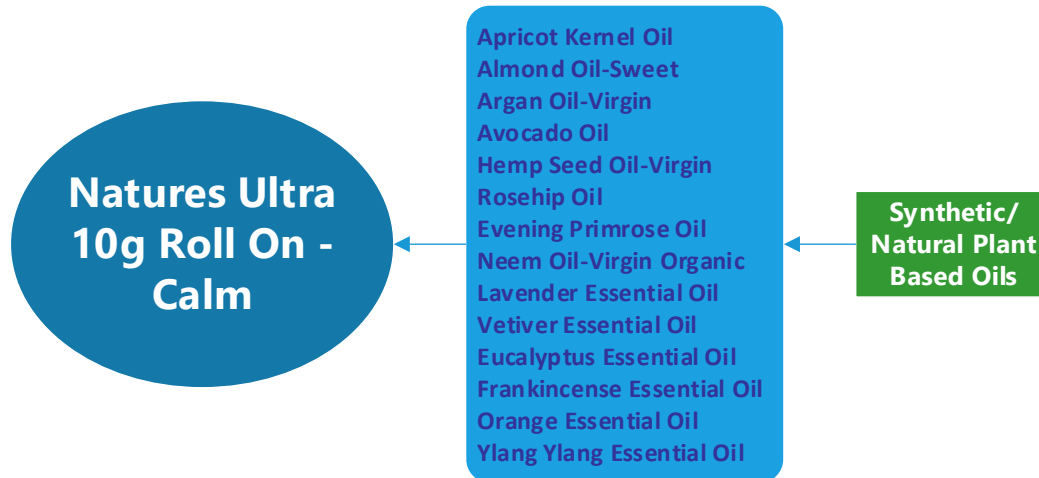

Muscles can hold a grudge. Whether you've spent the day at the gym, hiking, moving boxes, or lifting children, it's going to take something fierce for your body to forgive you. CBD Muscle Rub from Nature's Ultra takes the hot-and-cold sensation of menthol and gives it a boost by infusing it with an array of all-natural Young Living essential oils: Camphor, Clove, Helichrysum, Lemon, Peppermint, Tea Tree, Wintergreen, and more. These ingredients work hard together to soothe your hard-working body. Infused with 100% pure, therapeutic-grade essential oils from Young Living Essential Oils.

### **All Ingredients** – **Halal** (Aslan)

All of the ingredients are derived from permissible sources. Each supplier of the raw material has signed statements of halal compliance.

**Concerns** – CBD comes from the cannabis plant family, which naturally contains Tetrahydrocannabinol (THC). THC is the principal psychoactive constituent of cannabis, which is impermissible to utilize due to the intoxicating effect on humans. This oil does not contain any THC, which is tested at third party labs for verification. Therefore, CBD in this product does carry any intoxicating properties when utilized.

## Natures Ultra 10g Roll on - Calm – All Sizes

### All Roll On Products (Item #'s 800176, 800177)

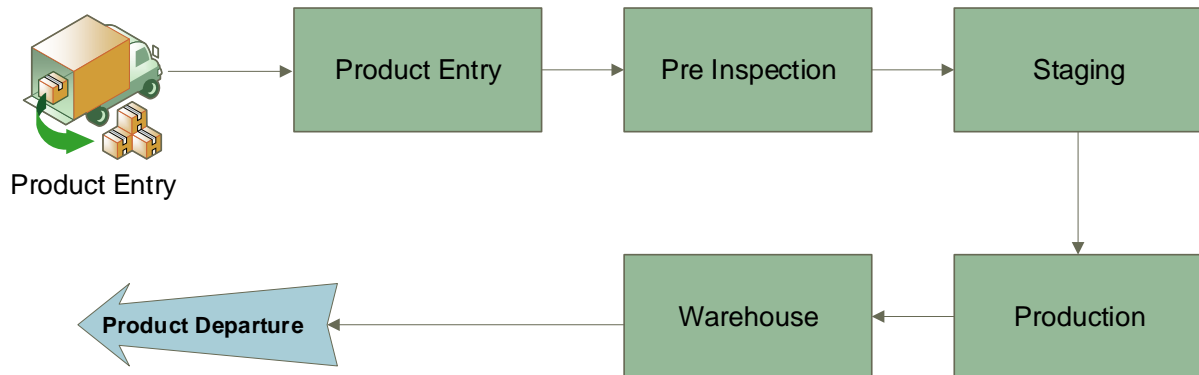

Calm CBD Roll On from Nature's Ultra creates a peaceful environment that will help relax and quiet your mind. This is the perfect roll on for when you're trying to wind down for the night. Infused with Young Living Essential Oils.

### All Ingredients – **Halal** (Aslan)

All of the ingredients are derived from permissible sources. Each supplier of the raw material has signed statements of halal compliance.

Concerns – CBD comes from the cannabis plant family, which naturally contains Tetrahydrocannabinol (THC). THC is the principal psychoactive constituent of cannabis, which is impermissible to utilize due to the intoxicating effect on humans. This oil does not contain any THC, which is tested at third party labs for verification. Therefore, CBD in this product does carry any intoxicating properties when utilized.

## PROCESSING OVERVIEW

## CLEANING METHOD

Frequency: Prior to use of rooms, whether it be first use of the day or following a previous production run, line clearance must be performed. In addition to checking equipment condition and status, work surfaces, small equipment contact surfaces, vessels, etc. must be thoroughly sanitized with 70% isopropyl alcohol and completely dried with lint free paper towels.

Prior to use of rooms, whether it be first use of the day or following a previous production run, line clearance must be performed. In addition to checking equipment condition and status, work surfaces, small equipment contact surfaces, vessels, etc. must be thoroughly sanitized with 70% isopropyl alcohol and completely dried with lint free paper towels.

Campaign production or production runs that extend into multiple days will prevent complete daily room and equipment cleaning. In these cases, complete cleaning must be conducted following the completion of the campaign.

## PRODUCT & SUPPLIER ASSESSMENT

### Young Living

Raw Material	Ingredient Description	Status	Reason	Ruling	Concerns
Spearmint	Spearmint is a perennial herbaceous plant. The plant is a tetraploid species (Also known as <i>Mentha spicata</i> )	Pass	No known intoxicating effect	Halal Aslan	None
Peppermint	Peppermint ( <i>Mentha × piperita</i> , also known as <i>Mentha balsamea</i> Wild.) [1] is a hybrid mint, a cross between watermint and spearmint.	Pass	No known intoxicating effect	Halal Aslan	None
Cinnamon Bark	Cinnamon ( <i>/ˈsɪnəməŋ/ SIN-ə-mən</i> ) is a spice obtained from the inner bark of several tree species from the genus <i>Cinnamomum</i> .	Pass	No known intoxicating effect	Halal Aslan	None
Lemon	The lemon, <i>Citrus limon</i> (L.) Osbeck, is a species of small evergreen tree in the flowering plant family Rutaceae, native to South Asia, primarily North eastern India.	Pass	No known intoxicating effect	Halal Aslan	None
Orange	The orange is the fruit of the citrus species <i>Citrus × sinensis</i> in the family Rutaceae, native to China.	Pass	No known intoxicating effect	Halal Aslan	None
Grapefruit	The grapefruit ( <i>Citrus × paradisi</i> ) is a subtropical citrus tree known for its relatively large sour to semi-sweet, somewhat bitter fruit.	Pass	No known intoxicating effect	Halal Aslan	None
Howood	Ho Wood Oil is steam distilled from the bark and wood (and sometimes the leaves are simultaneously distilled) of the same tree that brings us Ravintsara Essential Oil. Ravintsara Oil is distilled from the leaves of <i>Cinnamomum Camphora</i> .	Pass	No known intoxicating effect	Halal Aslan	None
Melaleuca	Melaleuca ( <i>/ˌmɛləˈljuːkə/</i> ) is a genus of nearly 300 species of plants in the myrtle family, Myrtaceae, commonly known as paperbarks, honey-myrtles or tea-trees (although the last name is also applied to species of <i>Leptospermum</i> )	Pass	No known intoxicating effect	Halal Aslan	None

Helichrysum	The genus Helichrysum /hɛɪˈkraɪsəm/ consists of an estimated 600 species of flowering plants in the sunflower family (Asteraceae). The type species is Helichrysum orientale.	Pass	No known intoxicating effect	Halal Aslan	None
Clove Bud	Cloves are the aromatic flower buds of a tree in the family Myrtaceae, Syzygium aromaticum.	Pass	No known intoxicating effect	Halal Aslan	None
Eucalyptus	Eucalyptus /ˌjuːkəlɪptəs/[2] is a genus of over seven hundred species of flowering trees, shrubs or mallees in the myrtle family, Myrtaceae.	Pass	No known intoxicating effect	Halal Aslan	None
Frankincense	Frankincense is an aromatic resin used in incense and perfumes, obtained from trees of the genus Boswellia in the family Burseraceae, particularly Boswellia sacra (syn. B. bhaw-dajiana), B. carterii, B. frereana, B. serrata (B. thurifera, Indian frankincense), and B. papyrifera.	Pass	No known intoxicating effect	Halal Aslan	None
Ylang Ylang	Cananga odorata, known as the cananga tree is a tropical tree that is valued for the perfume extracted from its flowers, called ylang-ylang	Pass	No known intoxicating effect	Halal Aslan	None
Lavender	Lavandula (common name lavender) is a genus of 47 known species of flowering plants in the mint family, Lamiaceae.	Pass	No known intoxicating effect	Halal Aslan	None
Winter Green	Wintergreen is a group of aromatic plants. Wintergreens in the genus Gaultheria contain an aromatic compound, methyl salicylate, and are used as a mintlike flavoring	Pass	No known intoxicating effect	Halal Aslan	One millilitre (20 drops) of oil of wintergreen is equivalent to about 1860 mg of aspirin, or almost six regular-strength adult aspirin table
Vetiver Oils	Chrysopogon zizanioides, commonly known as vetiver is a perennial bunchgrass of the family Poaceae, native to India.	Pass	No known intoxicating effect	Halal Aslan	None

### New Direction

Raw Material	Ingredient description	Status	Reason	Ruling	Concern
Camellia Seed Oil	Tea seed oil (also known as camellia oil, camellia seed oil) is an edible plant oil. It is obtained from the seeds of Camellia oleifera.	<b>Pass</b>	No known intoxicating effect	Halal Aslan	None

### Bulk Apothecary

Raw Material	Ingredient description	Status	Reason	Ruling	Concern
Beeswax White	Beeswax (cera alba) is a natural wax produced by honey bees of the genus Apis.	<b>Pass</b>	No known Intoxicating effect	Halal Aslan	
Safflower Oil	Safflower seed oil is flavorless and colorless, and nutritionally similar to sunflower oil.	<b>Pass</b>	No known Intoxicating effect	Halal Aslan	
Shea Butter	Shea butter (/ʃi:/, /'ʃi:ə/, or /ʃeɪ/) is a fat extracted from the nut of the African shea tree (Vitellaria paradoxa).	<b>Pass</b>	No known Intoxicating effect	Halal Aslan	
Vitamin E(tocopheryl acetate)	$\alpha$ -Tocopheryl acetate, also known as vitamin E acetate, is a synthetic form of vitamin E. It is the ester of acetic acid and $\alpha$ -tocopherol.	<b>Pass</b>	No known Intoxicating effect	Halal Aslan	

Camphor	Camphor (/ˈkæmfər/) is a waxy, flammable, transparent solid with a strong aroma.[5] It is a terpenoid with the chemical formula C <sub>10</sub> H <sub>16</sub> O. It is found in the wood of the camphor laurel	Pass	No known Intoxicating effect	Halal Aslan	
---------	--	------	------------------------------	-------------	--

### **Kinetic (Green Line)**

Raw Material	Ingredient description	Status	Reason	Ruling	Concern
Arnica Extract in Safflower Oil	Arnica /ˈɑːrnɪkə/ is a genus of perennial, herbaceous plants in the sunflower family (Asteraceae).	Pass	No known intoxicating effect	Halal Aslan	

### **Starwest Botanicals**

Raw Material	Ingredient description	Status	Reason	Ruling	Concerns
Wormwood Oil	Artemisia absinthium (wormwood, grand wormwood, absinthe, absinthium , absinthe wormwood[4]) is a species of Artemisia native to temperate regions of Eurasia[5] and Northern Africa	Pass	Not used in unsafe dosages	Halal Aslan	Most chemotypes of Artemisia absinthium contain (-)- $\alpha$ - and/or (+)- $\beta$ -thujone, though some do not. (-)- $\alpha$ -Thujone by itself is a GABAA receptor antagonist that can cause convulsions and death when administered in large amounts to animals and humans.

## Jedwards

Raw Material	Ingredient description	Status	Reason	Ruling	Concerns
MCT Oil 60/40	BergaBest MCT Oil 60/40 is a medium chain triglyceride of fractionated vegetable fatty acids , mainly caprylic and capric acid. It is colourless, neutral in odour and taste, and has a very low viscosity.	<b>Pass</b>	No known intoxicating effect	Halal Aslan	
Stevia Extract Powder97%	Stevia (/ 'sti:viə, 'stɛviə/)[1][2] is a sweetener and sugar substitute derived from the leaves of the plant species Stevia rebaudiana, native to Brazil and Paraguay.	<b>Pass</b>	No known intoxicating effect	Halal Aslan	
Menthol Crystals	Menthol is an organic compound made synthetically or obtained from the oils of corn mint, peppermint, or other mints. It is a waxy, crystalline substance, clear or white in color, which is solid at room temperature and melts slightly above	<b>Pass</b>	Not used in lethal doses	Halal Aslan	The estimated lethal dose for menthol (and peppermint oil) in humans may be as low as 50–500 mg/kg

Squalane Oil - Olive	Squalane is a hydrocarbon derived by hydrogenation of squalene. Traditionally sourced from the livers of sharks, other methods, such as derivation from olives oil, have been commercialized due to environmental concerns.	Pass	No known intoxicating effect	Halal Aslan	
Jojoba Oil - Golden	Jojoba oil is extracted from seeds of the jojoba plant, scientifically known as Simmondsia chinensis,	Pass	No known intoxicating effect	Halal Aslan	
Apricot Kernel Oil	Apricot oil or apricot kernel oil is pressed from the kernels of the Prunus armeniaca (apricot).	Pass	No known intoxicating effect	Halal Aslan	
Almond Oil - Sweet	In relation to total dry mass of the kernel, almond oil contains 32% monounsaturated oleic acid (an omega-9 fatty acid), 13% linoleic acid (a polyunsaturated omega-6 essential fatty acid), and 10% saturated fatty acid (mainly as palmitic acid	Pass	No known intoxicating effect	Halal Aslan	
Argan Oil - Virgin Organic	Argan oil is a plant oil produced from the kernels of the argan tree (Argania spinosa L.) that is endemic to Morocco	Pass	No known intoxicating effect	Halal Aslan	
Avocado Oil	Avocado oil is an edible oil pressed from the fruit of the Persea americana (avocado)	Pass	No known intoxicating effect	Halal Aslan	

Hemp Seed Oil - Virgin	Hemp oil (hemp seed oil or hempseed oil) is oil obtained by pressing hemp seeds. Hemp seed oil is manufactured from varieties of Cannabis sativa that do not contain significant amounts of tetrahydrocannabinol (THC), the principal psychoactive element present in the cannabis plant	Pass	It is not manufactured from varieties of Hemp containing significant amounts of THC	Halal Aslan	
Rosehip Oil	Rose hip seed oil is a pressed seed oil, extracted from the seeds of the wild rose bush (Rosa moschata or Rosa rubiginosa) in the southern Andes.	Pass	No known intoxicating effect	Halal Aslan	
Evening Primrose Oil - 10% GLA	gamma-Linolenic acid or GLA ( $\gamma$ -linolenic acid), (INN and USAN gamolenic acid) is a fatty acid found primarily in vegetable oils, such as that of Evening Primrose	Pass	No known intoxicating effect	Halal Aslan	
Neem Oil - Virgin Organic	Neem oil is a vegetable oil pressed from the fruits and seeds of the neem (Azadirachta indica), an evergreen tree which is endemic to the Indian subcontinent	Pass		Halal Aslan	The ingestion of neem oil is potentially toxic and can cause metabolic acidosis, seizures, renal failure, encephalopathy and severe brain ischemia in infants and young children .

## Mile High Labs

Raw Material	Ingredient description	Status	Reason	Ruling	Concerns
CBD	Cannabidiol (CBD) is a phytocannabinoid discovered in 1940. It is one of 113 identified cannabinoids in cannabis plants and accounts for up to 40% of the plant's extract.	<b>Pass</b>	CBD is not psychoactive	Halal Aslan	

## TESTING METHOD

The following tests are performed for the production facility: Cleaning Validation, Green Scientific Labs, Pesticide Analysis, Microbial, Mycotoxin Analysis.

# CONCLUSION

Client was cooperative, transparent and compliant with on-site access, and all relevant documentation requests. Inspector was able to identify all critical Halal integrity control points. All source materials have been analysed during this audit and review. Dynamic Blending's manufacturing facility has been deemed to be conducive to maintaining the integrity of a Halal product.

**Based upon this information, the review team hereby certifies both the facility, and all products mentioned in this report to be Halal.**
