Listeria, negative in 25 g	Negative	Negative		AOAC
Water activity	< 0.05	< = 0.15		ROTRONIC METHOD
Yeast and Mold count	< 100	< 100	/g	USP
Microscopic Identification	Conforms	Conforms		USP

**Comments**

Contains: Lacticaseibacillus casei Lc-11

The above product meets the current strain specific USP/NF monograph. Strain identity is confirmed according to monograph requirements based on a sampling plan.

Each probiotic intermediate is confirmed to the genus/species level (or sub-species level, where applicable)
