Product Information

Product: Sodium Benzoate

INCI Name: Sodium Benzoate

Included below is a compilation of commonly requested statements and information. The information herein is correct to the best of our knowledge. Please review pertinent Safety Data Sheet and Specifications for the mentioned product.

Subject	Statement
Artificial Colors	Artificial Colors are not intentionally added to this product. This product is not tested for artificial colors.
Bioengineered Foods (BE Foods)	This product is not expected to contain bioengineered foods. BE foods are not intentionally added to this product.
BSE/TSE Risk	We hereby confirm that this product does not contain bovine (cow), caprine (goat) or ovine (sheep) derived raw materials or products. This product is manufactured and supplied in the condition such that no cross-contamination with any animal or human origin materials having the risk of transmissible Bovine and human Spongiform Encephalopathy.
Country of Origin	The above-mentioned product is manufactured in the United States.
Document Control and Retain	The manufacturer (proprietary) has a document control program in line with ISO 9001:2015 requirements. Documents are retained according to EKC defined retention periods.
Elemental Impurities	This product has been representatively sampled and tested for certain elemental impurities. The herein mentioned product contains < 1mg/kg of the following: Antimony, Arsenic, Bismuth, Cadmium, Chromium, Cobalt, Copper, Iron, Lead, Manganese, Mercury, Molybdenum, Nickel, Silver, Tin, Vanadium, and Zinc.

Subject	Statement
Enzymes	Enzymes are not intentionally added to this product. None of the raw materials used in the manufacturing are expected to contain enzymes.
Allergens and Intolerance Factors	<p>While we do not monitor for all of the allergens and intolerance factors listed below, based on knowledge of the raw materials and manufacturing processes, we do not expect any of the below to be present in this product:</p> <ol style="list-style-type: none">1. Milk and products thereof2. Egg and products thereof3. Fish and products thereof4. Shellfish (crustacean) and products thereof5. Tree nuts and products thereof6. Peanuts and products thereof7. Grains and products thereof (including gluten)8. Soy and products thereof9. Sesame and products thereof10. Celery and products thereof11. Mustard and products thereof12. Lupin and products thereof13. Mollusks and products thereof14. Sulfur dioxide and sulfites at concentrations > 10mg/kg15. Fruits and products thereof16. Meat and products thereof17. Coconut18. Yeast19. MSG20. Chocolate and products thereof21. FD&C Colors
Gluten	Gluten containing grains or ingredients derived from gluten are not used in any manufacturing process. Gluten is not intentionally added nor is the presence tested for in this product.

Subject	Statement
Good Manufacturing Practices (cGMPs)	This product is manufactured according to current Good Manufacturing Practices as outlined in 21 CFR Part 100.
Hazard Analysis Critical Control Point (HACCP)	The manufacturer's program employs the seven principles of HACCP: <ol style="list-style-type: none">1. Hazard Analysis2. Critical Control Points (CCP)3. Critical Limits4. Monitoring Procedures5. Corrective Actions6. Verification Procedures7. Record-keeping and Documentation procedures Due to the proprietary information contained within the full respective HACCP plans, we are not able to share the full HCCP plan.
Irradiation	This product is not irradiated during manufacturing or packaging.
Latex	This product does not contain latex.
Raw Material Origin	The herein mentioned product is synthetic.
Metal Detection	Sodium Benzoate is metal detected. Metal detectors are verified at defined intervals at the manufacturing site.
Microbial Testing Limit	Although microbial testing is not a compendial requirement of the product specification, the manufacturer has conducted testing for informational purposes only. Results of the most recent testing for Sodium Benzoate are as follows: Salmonella: Negative Staphylococcus aureus: Negative Pseudomonas aeruginosa: Negative Escheria coli: Negative Listeria mono: Negative Total Aerobic counts per gram: <10 Total Yeast counts per gram: <10 Total mold counts per gram: <10

Subject	Statement
Palm Oil	Palm oil and palm oil derivatives are not intentionally added to this product. We do not test for palm oil or palm oil derived substances. None of the raw materials are palm derived.
Parabens	Parabens are not intentionally added to this product. We do not test for parabens in this product.
Pesticides	Pesticides are not used in the manufacturing or storage of this product. We do not analyze for pesticide residue in this product.
Pest Control	The manufacturer has a documented pest control program in place. The site is serviced by a third party contractor according to the manufacturer's respective requirements.
Production Process Flow	Sodium Benzoate is manufactured and packaged in Washington State via the following process: Raw Materials→ Reaction→ Filtration→ Drying→ Particle Size Formation→ Packaging→ Metal Detection The raw materials for Sodium Benzoate are Sodium Hydroxide and Benzoic Acid.
Regulatory Information	Please refer to the Regulatory Section of the SDS.
Retain Samples	Lotioncrafter collects and stores retain samples for all final product lots. Retain samples are stored for defined storage periods according to Lotioncrafter policies and procedures.
Safety Data Sheets (SDS)	SDS can be obtained from the company website: https://www.lotioncrafter.com/
Storage & Handling	This product should be stored according to the conditions as described in the Safety Data Sheet (SDS).
Shelf Life	The recommended re-test date for Sodium Benzoate is 24 months from the date of manufacture. This information can be found on the COA for each lot of material.
