

STANDARD OPERATING PROCEDURE (SOP)

Category:	MATERIALS CONTROL	Page:	1 of 4
Title:	DISPOSITION OF REJECTED MATERIALS	SOP No.:	MTC - 003
Effective:	01/15/2026	Rev.#/Date:	1-01/15/2026

1.0 PURPOSE

This SOP defines the minimum requirements for the disposition of raw materials, packaging materials, labels and/or finished products due to reasons such as expiry, nonconformance, discontinuance, returns and/or recalls.

2.0 SCOPE

This SOP applies to all raw materials, packaging materials, labels and/or finished products that have been determined to be eligible for destruction and/or return to the vendor and the related documentation.

3.0 RESPONSIBILITY:

- 3.1 All employees involved in the disposition of the rejected materials are responsible for following this SOP.
- 3.2 The QA/QC department is responsible for completing the paperwork required by this SOP.
- 3.3 Production Manager and the QA Manager are responsible for ensuring this SOP is followed.
- 3.4 The QA manager is responsible for maintaining the paperwork required by this SOP.

4.0 POLICY: N/A

5.0 DEFINITION (S): N/A

- 5.1 **Rejected Material** is a material failing to meet established specifications, identified as such, and quarantined.
- 5.2 **Destruction** is to render a material unusable/useless and safe for disposal.

6.0 REFERENCE:

- 6.1 SOP ADM – 007 Return Goods Procedure
- 6.2 SOP QA-008 – Out of Specification Results Handling
- 6.3 SOP QA-006 – Stability and Shelf Life
- 6.4 SOP ADM-008 – Product Recalls

7.0 EQUIPMENT / MATERIALS:

- 7.1 Shredder or milling machine

8.0 PROCEDURE

- 8.1 Rejected Materials

Title:	DISPOSITION OF REJECTED MATERIALS	SOP No.:	MTC - 003
Effective:	01/15/2026	Rev.#/Date:	1-01/15/2026

- 8.1.1 Materials rejected by QC and/or the Material Review Board (MRB) are identified with "Rejected" stickers placed on the material by the QC Department. Attach the Non-Conformity Report to the container(s).
- 8.1.2 Move the rejected materials to the designated rejected materials location.
- 8.1.3 QA/QC and/or the MRB are responsible for determining if the material/product is to be returned to the vendor or destroyed.
- 8.1.4 If the material/product is to be returned to the vendor, Purchasing is responsible for coordinating the pick-up, return, reimbursement, and/or replacement material/product. Refer to Section 8.3 below.
- 8.1.5 If it is necessary to destroy a material/product, the designated department initiates a Product Destruction notice.
- 8.1.6 The following information is recorded on the Material / Product Destruction notice:
- Material/product name and lot number
 - Quantity by weight/volume and number of containers
 - Current inventory location
 - Package size (if bottled product)
 - Reason for proposed destruction
 - Requested by and date
- 8.1.7 The individual requesting the destruction forwards the form to his/her department management for department review and approval. After approval, the form is forwarded to other designated departments for review and approval.
- 8.1.8 QA is the final review and approval of the form. When completed, copies of the form are sent to inventory control, purchasing, QA, and other departments as needed.
- 8.1.9 The production manager is responsible for contacting the designated waste hauler if the quantity of materials/products to be destroyed and disposed of is too large to be accommodated by the facility's dumpsters, or if the materials/products require a specific destruction method, such as incineration, landfill, etc.
- 8.1.10 The QA manager is responsible for contacting an appropriate hazardous waste hauler if the material/product is determined to be hazardous.

8.2 Destruction and Disposal

STANDARD OPERATING PROCEDURE (SOP)

Category:	MATERIALS CONTROL	Page:	3 of 4
Title:	DISPOSITION OF REJECTED MATERIALS	SOP No.:	MTC - 003
Effective:	01/15/2026	Rev.#/Date:	1-01/15/2026

- 8.2.1 Before removing the material/product to be destroyed from the facility, the Plant Manager (or designee) transfers the material/product to the loading dock area. A Destruction List is prepared using copies of the completed Destruction Notices.
- 8.2.2 Acceptable methods for destruction include: shredding, milling, dilution, and using water as a solvent. NEVER DISCARD WHOLE, SEALED BOTTLES.
- 8.2.3 If the material/product can be sufficiently diluted and flushed down the drain, this can be performed in the presence of a QA/QC employee. Follow the instructions found on the material / product MSDS sheet.
- 8.2.4 Labeled bottles/containers must have all labels defaced.
- 8.2.5 Materials/products determined to be of a hazardous nature are maintained in appropriate containers and identified with the applicable hazardous material waste labels to await pickup by the required hazardous waste disposal services.
- 8.2.6 If the material/product requires special handling and disposal, such as incineration or landfill, a QA/QC employee accompanies the material/product to the destruction site and verifies the destruction. The QA/QC employee obtains a receipt from the landfill or incinerator facility for the material/product. This receipt is filed in the QA/QC department.
- 8.2.7 If the material/product requires hazardous waste disposal, a QA/QC employee maintains a copy of the manifesto listing the materials/products to be destroyed. A QA/QC employee obtains a receipt from the disposal service certifying appropriate destruction of the materials/products. This receipt is filed in the QA/QC department.

8.3 Materials Returned to the Vendor

- 8.3.1 Purchasing contacts the vendor, informs them of the rejection or disposition, and obtains authorization to return the material/ product.
- 8.3.2 Purchasing negotiates the method of return, including credit for and/or replacement of the material/product. This includes vendor responsibility for the freight costs in accordance with Hamida's standard purchasing terms & conditions. Purchasing notifies Accounting of any related financial transactions.

Effective:	01/15/2026	Rev.#/Date:	1-01/15/2026

8.3.3 If the vendor can show cause for not authorizing the return of the material, Purchasing may go back to QC and/or the MRB for additional review and disposition.

8.3.4 Purchasing coordinates the material return with Shipping & Receiving as appropriate.

8.3.5 Appropriate details and supporting documentation for materials return are recorded on the "Disposition of Rejected Materials Record".

9.0 SAFETY / PRECAUTION (S) :

9.1 Follow all Hamida-required safety policies when destroying material on-site. Review material/product MSDS sheets as needed prior to destruction.

10.0 ATTACHMENT (S):

- 10.1 SOP Attachment – 10.10.2 Non-Conformity Report
- 10.2 SOP Attachment – 10.14.20 Return Label
- 10.3 SOP Attachment – 10.14.25 Rejected Label
- 10.4 SOP Attachment – 10.3.6 Shipping Log
- 10.5 Material / Product Destruction Notice
- 10.6 Disposition of Rejected Materials Record
