# COMPANY BACKGROUND

**Halal Watch World LLC** is a halal certification limited liability corporation based in the state of New York, and has operated in the certification industry since 1990. HWW is an organization that stands upon the trust of the Muslim public, and believes that it is imperative that their trust never be jeopardized. We maintain standards to the highest degree of scrutiny and perform regular audits for the protection of our constituents.

Halal Watch World understands that halal certification is a communal obligation (فرض كفاية), meaning, at least one person of the community must uphold it. If no one takes up this responsibility, the entire community bears a burden of sin. Therefore, we must be extra diligent with this effort. We realize the seriousness of the matter and understand the dire consequences of not filling this duty to the fullest capacity. God explains this to us in the Holy Quran by His statement:

***“ And say not concerning that which your tongue says falsely: 'This is Halal and this is Haram,' so as to invent lies against Allah. Verily, those who invent lies against Allah will never prosper...A passing brief enjoyment (will be theirs), but they will have a painful torment.”***

*[Al Quran] 16:116-117*

HWW ensures to the best of its ability a high level of authenticity is upheld. This allows them to gain the trust of the Muslim community, and garner strong relationships with companies who produce, process, and distribute halal products at all levels. By this, they are able to offer halal producing company's guidance and consultation on the direction of their processes and products, while ensuring that Islamic dietary standards are always maintained and monitored. Muslims can use this information in order to make well informed decisions about what they choose to eat.

**Legal Filings:** Halal Watch World holds registered trademark number 4728733, and Department of State (New York) number 4814343. Halal Watch World is also a registered halal certifying organization with The Department of Agriculture and Markets of New York State (See supporting documentation).

We begin in the name of God SWT

# CERTIFICATION CONSIDERATIONS

There are 4 main factors taken into consideration when determining the halal status of a product:

## **1. Is the product/ingredient Halal Aslan (by default)?**

If the product is Halal by default, then the location it is harvested, produced, or manufactured in, even if done so by a non-Muslim, is not necessary to inspect.

## **2. Is the product/ingredient Halal certified via another organization?**

If another organization certifies the product as Halal, then it is incumbent upon us to perform a *tahqeeq* (verification) certification of the establishment. We must be able to ascertain that the certifying body is competent and capable of determining the status of such products. In the event that we are unable to gain this information, our organization must inspect the location of production before certifying.

## **3. Are there any impermissible ingredients being produced in the same facility?**

As is the norm in Muslim minority societies, manufacturers produce both Halal and Non-Halal products in the same facilities. If other non-Halal items are produced in the same facility, an inspection may be required. In the event that an inspection is not possible, Halal Watch World reserves the right to utilize other forms of off-site audit procedures requiring documentation and the like in order to determine the facilities halal production capabilities. It is generally required for us to determine that the manufacturer prevents the following:

1. Product Contamination
2. Cleaning Method fulfils Islamic requirements
3. Separate storage locations between Halal and non-Halal products, or preventative measures are in place to remove the possibility of mislabelling
4. Halal certified label is visible either on the box or the product
5. Halal certificate from source meat supplier is valid

Regarding contamination, products cannot be cooked upon or within the same utensils without proper cleansing. This means that any liquid substance that interacts with non-halal products becomes contaminated. This includes oil, and other wet cooking surfaces. Thus, if a vat of oil is used to cook non-halal products (which is considered as filth), it cannot be used to cook Halal products without contaminating it.

#### 4. Are there any contents in the product that contain impermissible ingredients?

We refer to the list of impermissible consumables on the previous pages. If the product under audit is found to contain any of the ingredients on the ban list, these products cannot be considered as halal.

# Client Details: A&M Global Solutions, Inc

## FACILITY PROFILE

Food Group by A&M Global Solutions is part of an international vertically integrated group dedicated to the production and distribution of oats. Our factories are currently located in the United States, Venezuela, and Chile. We have the products and production capabilities to serve the retail market, the foodservice industry and supply raw materials needed by major food production companies.

## PRODUCT PROFILE

### Old Fashioned Oatmeal

#### **OLD FASHIONED OATMEAL** (Item: FOO1-ASC-FT-07-002)

Rolled whole oats, without further processing, can be cooked into a porridge and eaten as old-fashioned oats or Scottish oats

#### Ingredient Status

100% Rolled Oats: – **Halal** (Aslan) [Rolled oats are a type of lightly processed whole-grain food. Traditionally, they are made from oat groats that have been dehusked and steamed, before being rolled into flat flakes under heavy rollers and then stabilized by being lightly toasted.]

Concerns – None.

## Quick Cooking Oatmeal

### **QUICK COOKING OATMEAL** (Item: F001-ASC-FT-07-002)

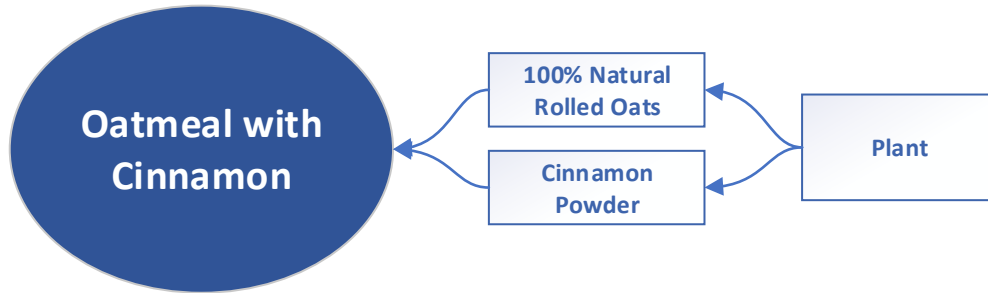

More highly fragmented and processed rolled oats absorb water much more easily and therefore cook faster into a porridge, so they are sometimes called "quick" or "instant" oats.

#### Ingredient Status

100% Rolled Oats: – **Halal** (Aslan) [Rolled oats are a type of lightly processed whole-grain food. Traditionally, they are made from oat groats that have been dehusked and steamed, before being rolled into flat flakes under heavy rollers and then stabilized by being lightly toasted.]

Concerns – None.

## Oatmeal with Cinnamon

### **OATMEAL WITH CINNAMON** (Item: FOO1-ASC-FT-07-002)

Oatmeal refers to a preparation of oats that have been dehusked, steamed and flattened, or else a coarse flour made of hulled oat grains that have either been milled or steel-cut.

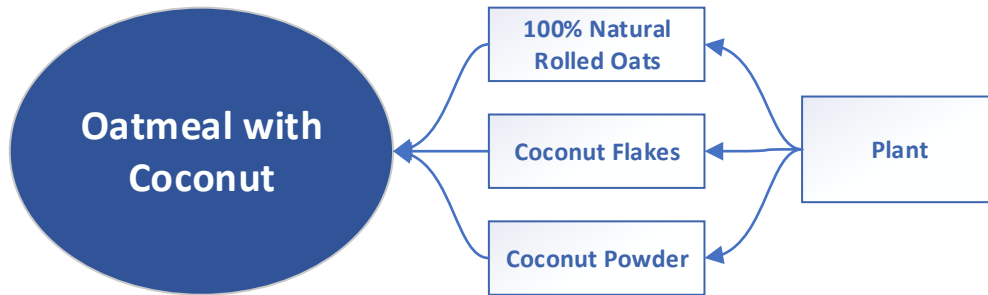

#### Ingredient Status

100% Rolled Oats: – **Halal** (Aslan) [Rolled oats are a type of lightly processed whole-grain food. Traditionally, they are made from oat groats that have been dehusked and steamed, before being rolled into flat flakes under heavy rollers and then stabilized by being lightly toasted.]

Cinnamon Powder: – **Halal** (Aslan) [Cinnamon is made by cutting the stems of cinnamon trees. The inner bark is then extracted and the woody parts removed. When it dries, it forms strips that curl into rolls, called cinnamon sticks. These sticks can be ground to form cinnamon powder.]

Concerns – None.

## Oatmeal with Coconut

### **OATMEAL WITH COCONUT** (Item: FOO1-ASC-FT-07-002)

Oatmeal refers to a preparation of oats that have been dehusked, steamed and flattened, or else a coarse flour made of hulled oat grains that have either been milled or steel-cut.

#### Ingredient Status

100% Rolled Oats: – **Halal** (Aslan) [Rolled oats are a type of lightly processed whole-grain food. Traditionally, they are made from oat groats that have been dehusked and steamed, before being rolled into flat flakes under heavy rollers and then stabilized by being lightly toasted.]

Coconut Flakes: – **Halal** (Aslan) [Unlike shredded or desiccated, flaked coconut is much larger. The coconut is shaved into long, wide flakes.]

Coconut Powder: – **Halal** (Aslan) [The term "coconut powder" is used to describe coconut flour or finely shredded coconut meat.]

Concerns – None.

## Oatmeal with Multiseeds

### **OATMEAL WITH MULTISEEDS** (Item: FOO1-ASC-FT-07-002)

Oatmeal refers to a preparation of oats that have been dehusked, steamed and flattened, or else a coarse flour made of hulled oat grains that have either been milled or steel-cut.

#### Ingredient Status

100% Rolled Oats: – **Halal** (Aslan) [Rolled oats are a type of lightly processed whole-grain food. Traditionally, they are made from oat groats that have been dehusked and steamed, before being rolled into flat flakes under heavy rollers and then stabilized by being lightly toasted.]

Flaxseeds: – **Halal** (Aslan) [Flax, also known as common flax or linseed, is a flowering plant, *Linum usitatissimum*, in the family Linaceae. It is cultivated as a food and fiber crop in regions of the world with temperate climate.]

Black Sesame Seeds: – **Halal** (Aslan) [Sesame is a flowering plant in the genus *Sesamum*, also called benne. Numerous wild relatives occur in Africa and a smaller number in India. It is widely naturalized in tropical regions around the world and is cultivated for its edible seeds, which grow in pods.]

Chia Seeds: – **Halal** (Aslan) [Chia seeds are the edible seeds of Salvia hispanica, a flowering plant in the mint family native to central and southern Mexico, or of the related Salvia columbariae of the southwestern United States and Mexico. Chia seeds are oval and gray with black and white spots, having a diameter around 2 millimetres.]

Concerns – None.

## Oatmeal with Raisins and Almonds

### **OATMEAL WITH RAISINS AND ALMONDS** (Item: FOO1-ASC-FT-07-002)

Oatmeal refers to a preparation of oats that have been dehusked, steamed and flattened, or else a coarse flour made of hulled oat grains that have either been milled or steel-cut.

#### Ingredient Status

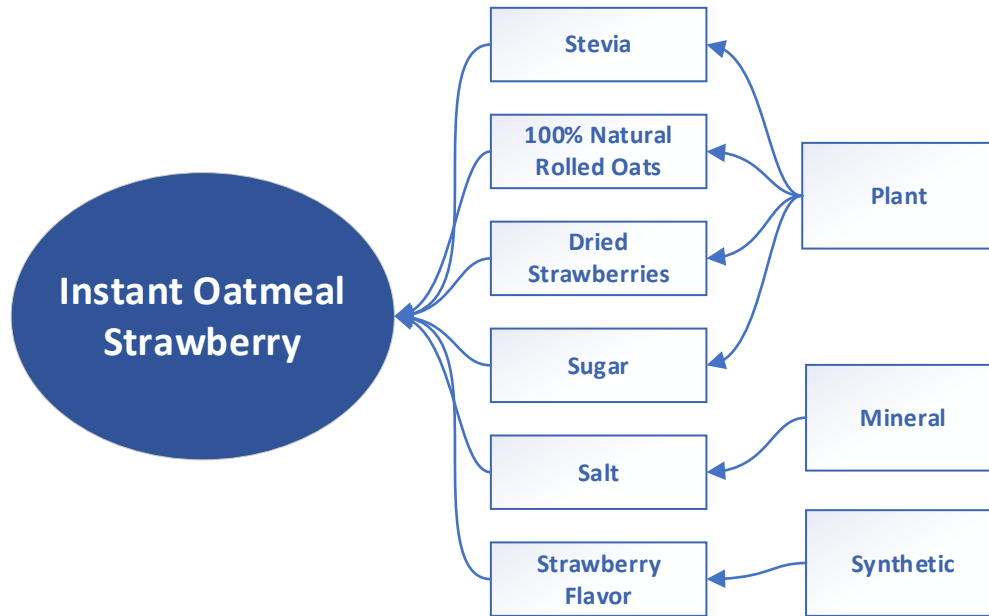

100% Rolled Oats: – **Halal** (Aslan) [Rolled oats are a type of lightly processed whole-grain food. Traditionally, they are made from oat groats that have been dehusked and steamed, before being rolled into flat flakes under heavy rollers and then stabilized by being lightly toasted.]

Raisins: – **Halal** (Aslan) [A raisin is a dried grape. Raisins are produced in many regions of the world and may be eaten raw or used in cooking, baking, and brewing.]

Almonds: – **Halal** (Aslan) [The almond is a species of tree native to Iran and surrounding countries but widely cultivated elsewhere. The almond is also the name of the edible and widely cultivated seed of this tree.]

Concerns – None.

## Instant Oatmeal Strawberry

### Instant Oatmeal Strawberry (Item: FGI-AFL-ST-FT-08)

Instant oatmeal with strawberries.

#### Ingredient Status

Stevia: – **Halal** (Aslan) [Stevia is a sweet sugar substitute extracted from the leaves of the plant species *Stevia rebaudiana* native to Paraguay and Brazil.]

100% Rolled Oats: – **Halal** (Aslan) [Rolled oats are a type of lightly processed whole-grain food. Traditionally, they are made from oat groats that have been dehusked and steamed, before being rolled into flat flakes under heavy rollers and then stabilized by being lightly toasted.]

Dried Strawberries: – **Halal** (Aslan) [The garden strawberry is a widely grown hybrid species of the genus *Fragaria*, collectively known as the strawberries, which are cultivated worldwide for their fruit. The fruit is widely appreciated for its characteristic aroma, bright red color, juicy texture, and sweetness.]

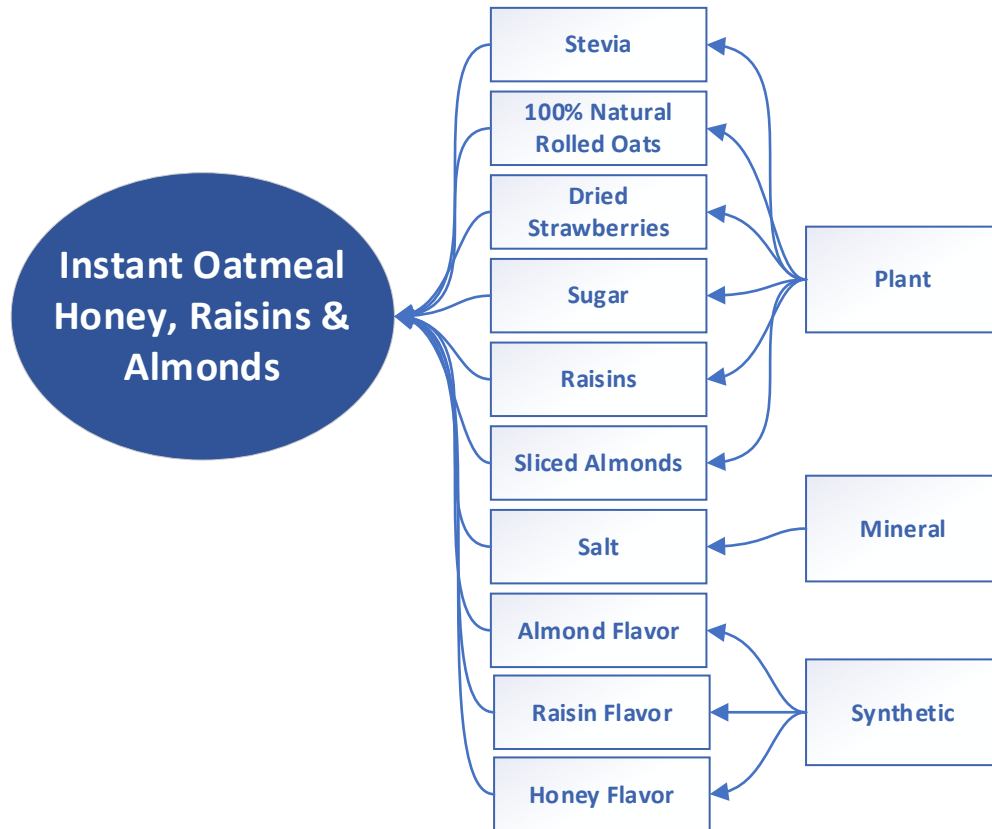

Sugar: – **Halal** (Aslan) [Sugar is the generic name for sweet-tasting, soluble carbohydrates, many of which are used in food. Simple sugars, also called monosaccharides, include glucose, fructose, and galactose.]

Salt: – **Halal** (Aslan) [In common usage, salt is a mineral composed primarily of sodium chloride. When used in food, especially at table in ground form in dispensers, it is more formally called table salt.]

Strawberry Flavor: – **Halal** (Aslan) [Foodarom strawberry flavoring.]

Concerns – None.

## Instant Oatmeal Honey, Raisins & Almonds

### Instant Oatmeal Honey, Raisins & Almonds (Item: FGI-AFL-HRA-FT-10)

Instant oatmeal with honey, raisins and almonds.

#### Ingredient Status

Stevia: – **Halal** (Aslan) [Stevia is a sweet sugar substitute extracted from the leaves of the plant species *Stevia rebaudiana* native to Paraguay and Brazil.]

100% Rolled Oats: – **Halal** (Aslan) [Rolled oats are a type of lightly processed whole-grain food. Traditionally, they are made from oat groats that have been dehusked and steamed, before being rolled into flat flakes under heavy rollers and then stabilized by being lightly toasted.]

Raisins: – **Halal** (Aslan) [A raisin is a dried grape. Raisins are produced in many regions of the world and may be eaten raw or used in cooking, baking, and brewing.]

Almonds: – **Halal** (Aslan) [The almond is a species of tree native to Iran and surrounding countries but widely cultivated elsewhere. The almond is also the name of the edible and widely cultivated seed of this tree.]

Sugar: – **Halal** (Aslan) [Sugar is the generic name for sweet-tasting, soluble carbohydrates, many of which are used in food. Simple sugars, also called monosaccharides, include glucose, fructose, and galactose.]

Salt: – **Halal** (Aslan) [In common usage, salt is a mineral composed primarily of sodium chloride. When used in food, especially at table in ground form in dispensers, it is more formally called table salt.]

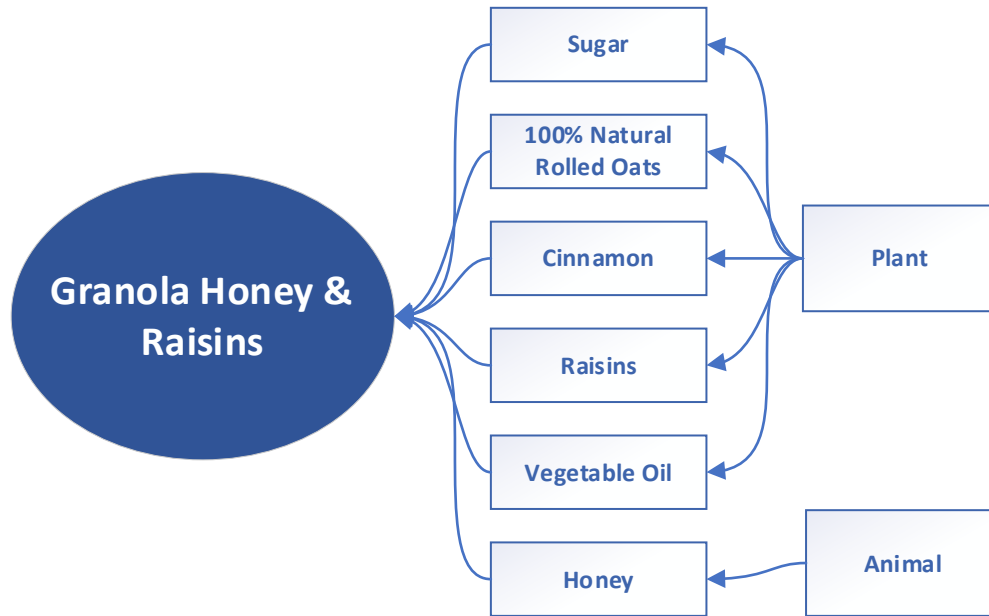

Almond Flavor: – **Halal** (Aslan) [Foodarom almond flavoring.]

Raisin Flavor: – **Halal** (Aslan) [Foodarom raisin flavoring.]

Honey Flavor: – **Halal** (Aslan) [Foodarom honey flavoring.]

Concerns – None.

## Granola Honey & Raisins

### Granola Honey & Raisins (Item: FGI-AGL-HR-FT-11)

Baked oatmeal flakes mixed with the delicious raisins and honey sweetener.

#### Ingredient Status

Sugar: – **Halal** (Aslan) [Sugar is the generic name for sweet-tasting, soluble carbohydrates, many of which are used in food. Simple sugars, also called monosaccharides, include glucose, fructose, and galactose.]

100% Rolled Oats: – **Halal** (Aslan) [Rolled oats are a type of lightly processed whole-grain food. Traditionally, they are made from oat groats that have been dehusked and steamed, before being rolled into flat flakes under heavy rollers and then stabilized by being lightly toasted.]

Cinnamon: – **Halal** (Aslan) [Cinnamon is a spice obtained from the inner bark of several tree species from the genus Cinnamomum. Cinnamon is used mainly as an aromatic condiment and flavouring additive in a wide variety of cuisines.]

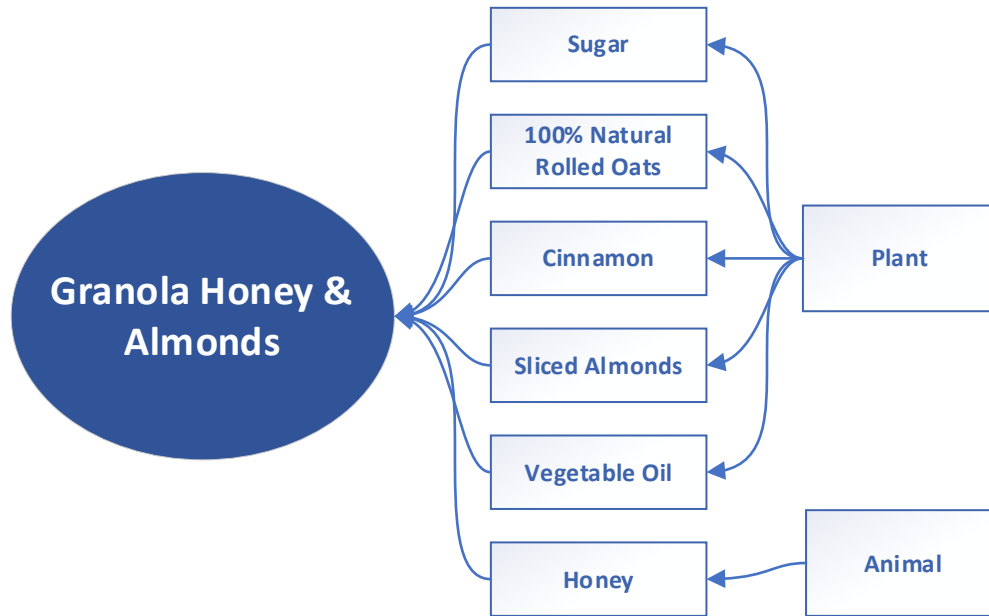

Raisins: – **Halal** (Aslan) [A raisin is a dried grape. Raisins are produced in many regions of the world and may be eaten raw or used in cooking, baking, and brewing.]

Vegetable Oil: – **Halal** (Aslan) [Vegetable oils, or vegetable fats, are oils extracted from seeds or from other parts of fruits. Like animal fats, vegetable fats are mixtures of triglycerides.]

Honey: – **Halal** (Aslan) [Honey is a sweet and viscous substance made by several bees, the best-known of which are honey bees. Honey is made and stored to nourish bee colonies.]

Concerns – None.

## Granola Honey & Almonds

### Granola Honey & Almonds (Item: FGI-AGL-HA-FT-12)

Baked oatmeal flakes mixed with the delicious raisins and honey sweetener.

#### Ingredient Status

Sugar: – **Halal** (Aslan) [Sugar is the generic name for sweet-tasting, soluble carbohydrates, many of which are used in food. Simple sugars, also called monosaccharides, include glucose, fructose, and galactose.]

100% Rolled Oats: – **Halal** (Aslan) [Rolled oats are a type of lightly processed whole-grain food. Traditionally, they are made from oat groats that have been dehusked and steamed, before being rolled into flat flakes under heavy rollers and then stabilized by being lightly toasted.]

Cinnamon: – **Halal** (Aslan) [Cinnamon is a spice obtained from the inner bark of several tree species from the genus Cinnamomum. Cinnamon is used mainly as an aromatic condiment and flavouring additive in a wide variety of cuisines.]

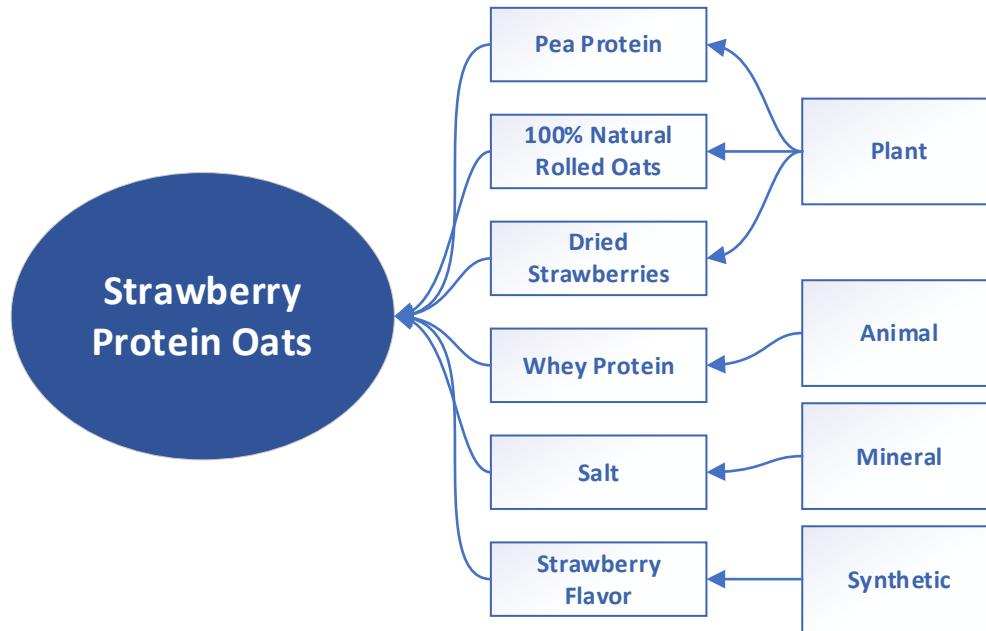

Almonds: – **Halal** (Aslan) [The almond is a species of tree native to Iran and surrounding countries but widely cultivated elsewhere. The almond is also the name of the edible and widely cultivated seed of this tree.]

Vegetable Oil: – **Halal** (Aslan) [Vegetable oils, or vegetable fats, are oils extracted from seeds or from other parts of fruits. Like animal fats, vegetable fats are mixtures of triglycerides.]

Honey: – **Halal** (Aslan) [Honey is a sweet and viscous substance made by several bees, the best-known of which are honey bees. Honey is made and stored to nourish bee colonies.]

Concerns – None.

## Strawberry Protein Oats

### Strawberry Protein Oats (Item: FGI-APL-ST-FT-13)

Instant oatmeal with proteins and strawberry.

#### Ingredient Status

Pea Protein: – **Halal** (Aslan) [Pea protein is a food product and protein supplement derived and extracted from yellow and green split peas, *Pisum sativum*. It can be used as a dietary supplement to increase an individual's protein or other nutrient intake, or as a substitute for other food products.]

100% Rolled Oats: – **Halal** (Aslan) [Rolled oats are a type of lightly processed whole-grain food. Traditionally, they are made from oat groats that have been dehusked and steamed, before being rolled into flat flakes under heavy rollers and then stabilized by being lightly toasted.]

Dried Strawberries: – **Halal** (Aslan) [The garden strawberry is a widely grown hybrid species of the genus *Fragaria*, collectively known as the strawberries, which are cultivated worldwide for their fruit. The fruit is widely appreciated for its characteristic aroma, bright red color, juicy texture, and sweetness.]

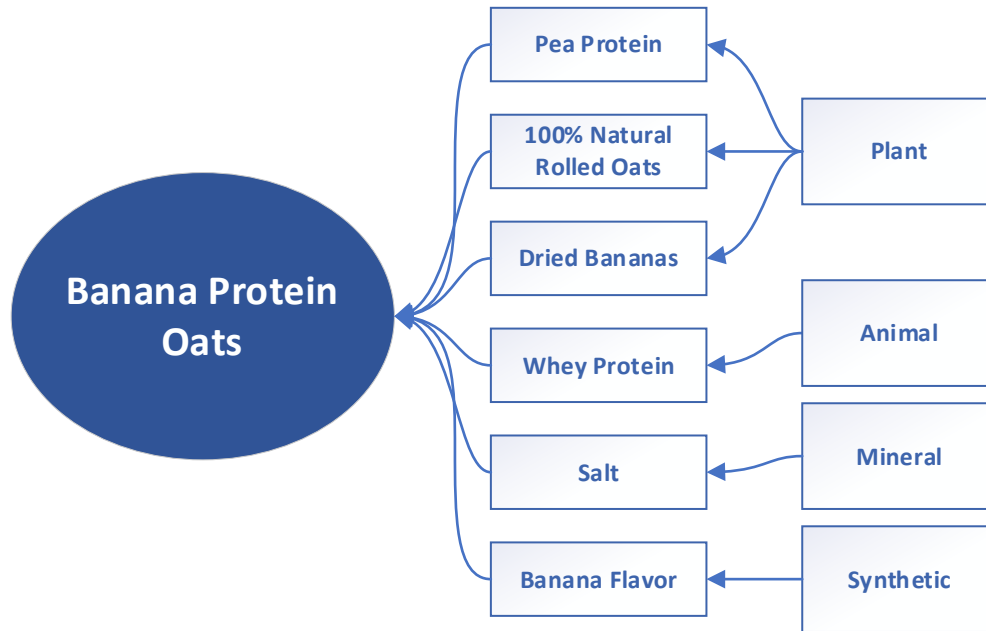

Whey Protein: – **Halal** (Aslan) [Whey is the liquid remaining after milk has been curdled and strained. It is a byproduct of the manufacturing of cheese or casein and has several commercial uses.]

Salt: – **Halal** (Aslan) [In common usage, salt is a mineral composed primarily of sodium chloride. When used in food, especially at table in ground form in dispensers, it is more formally called table salt.]

Strawberry Flavor: – **Halal** (Aslan) [Foodarom strawberry flavoring.]

Concerns – None.

## Banana Protein Oats

### **Banana Protein Oats** (Item: FGI-APL-BA-FT-14)

Instant oatmeal with proteins and bananas.

#### Ingredient Status

Pea Protein: – **Halal** (Aslan) [Pea protein is a food product and protein supplement derived and extracted from yellow and green split peas, *Pisum sativum*. It can be used as a dietary supplement to increase an individual's protein or other nutrient intake, or as a substitute for other food products.]

100% Rolled Oats: – **Halal** (Aslan) [Rolled oats are a type of lightly processed whole-grain food. Traditionally, they are made from oat groats that have been dehusked and steamed, before being rolled into flat flakes under heavy rollers and then stabilized by being lightly toasted.]

Dried Bananas: – **Halal** (Aslan) [A banana is an elongated, edible fruit – botanically a berry – produced by several kinds of large herbaceous flowering plants in the genus *Musa*.]

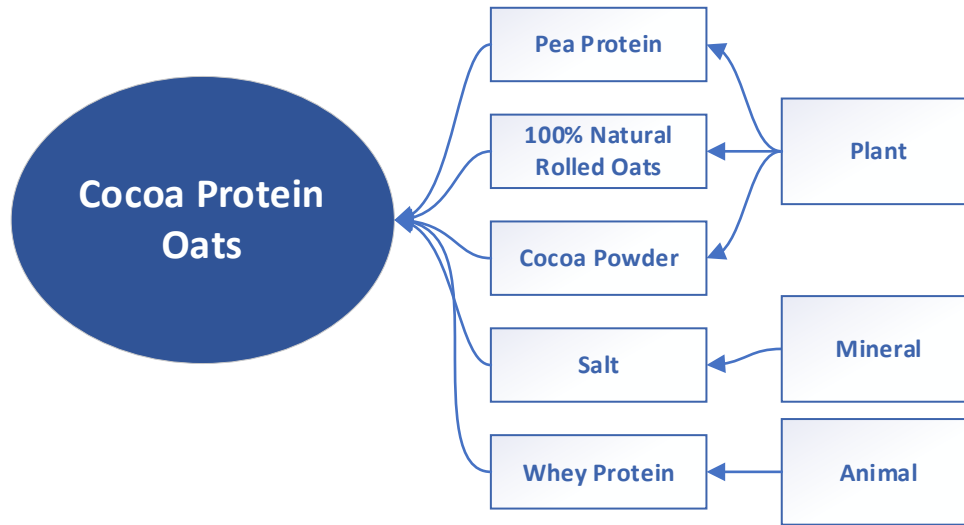

Whey Protein: – **Halal** (Aslan) [Whey is the liquid remaining after milk has been curdled and strained. It is a byproduct of the manufacturing of cheese or casein and has several commercial uses.]

Salt: – **Halal** (Aslan) [In common usage, salt is a mineral composed primarily of sodium chloride. When used in food, especially at table in ground form in dispensers, it is more formally called table salt.]

Banana Flavor: – **Halal** (Aslan) [Foodarom banana flavoring.]

Concerns – None.

## Cocoa Protein Oats

**Cocoa Protein Oats** (Item: FGI-APL-CH-FT-15)  
Instant oatmeal with proteins and chocolate.

### Ingredient Status

Pea Protein: – **Halal** (Aslan) [Pea protein is a food product and protein supplement derived and extracted from yellow and green split peas, *Pisum sativum*. It can be used as a dietary supplement to increase an individual's protein or other nutrient intake, or as a substitute for other food products.]

100% Rolled Oats: – **Halal** (Aslan) [Rolled oats are a type of lightly processed whole-grain food. Traditionally, they are made from oat groats that have been dehusked and steamed, before being rolled into flat flakes under heavy rollers and then stabilized by being lightly toasted.]

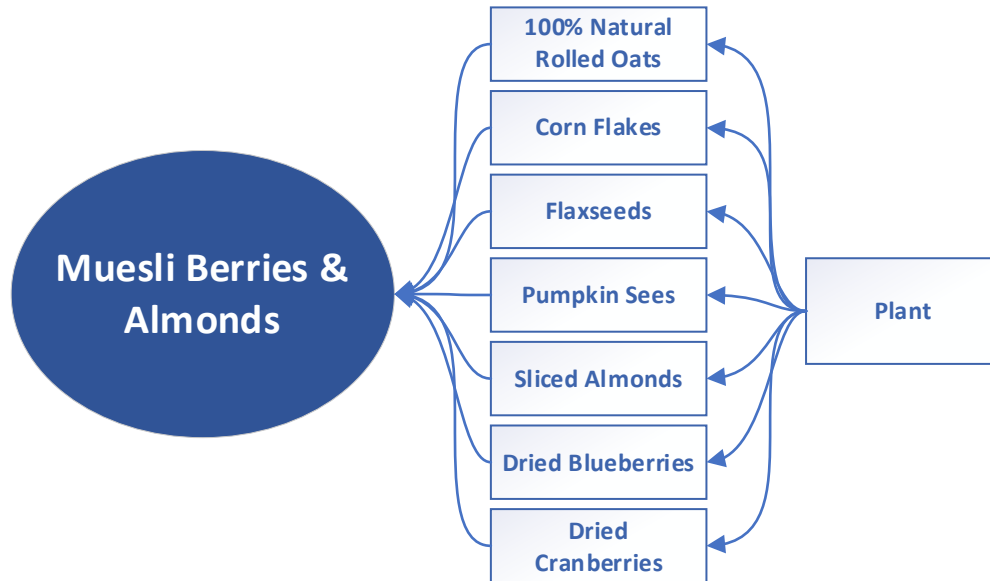

Cocoa Powder: – **Halal** (Aslan) [Dry cocoa solids are the components of cocoa beans remaining after cocoa butter, the fatty component of the bean, is extracted from chocolate liquor,]

Salt: – **Halal** (Aslan) [In common usage, salt is a mineral composed primarily of sodium chloride. When used in food, especially at table in ground form in dispensers, it is more formally called table salt.]

Whey Protein: – **Halal** (Aslan) [Whey is the liquid remaining after milk has been curdled and strained. It is a byproduct of the manufacturing of cheese or casein and has several commercial uses.]

Concerns – None.

## Muesli Berries & Almonds

### Muesli Berries & Almonds (Item: FGI-AML-BA-FT-018)

Mix of cereals, dehydrated fruits, seeds and nuts.

#### Ingredient Status

100% Rolled Oats: – **Halal** (Aslan) [Rolled oats are a type of lightly processed whole-grain food. Traditionally, they are made from oat groats that have been dehusked and steamed, before being rolled into flat flakes under heavy rollers and then stabilized by being lightly toasted.]

Corn Flakes: – **Halal** (Aslan) [Corn flakes, or cornflakes, are a breakfast cereal made from toasting flakes of corn.]

Flaxseed: – **Halal** (Aslan) [Flax (*Linum usitatissimum*) is a food and fiber crop. Flaxseeds are a good source of dietary fiber and omega-3 fatty acids, including alpha-linolenic acid.]

Pumpkin Seeds: – **Halal** (Aslan) [A pumpkin seed, also known in North America as a pepita, is the edible seed of a pumpkin or certain other cultivars of squash. The seeds are typically flat and asymmetrically oval, have a white outer husk, and are light green in color after the husk is removed.]

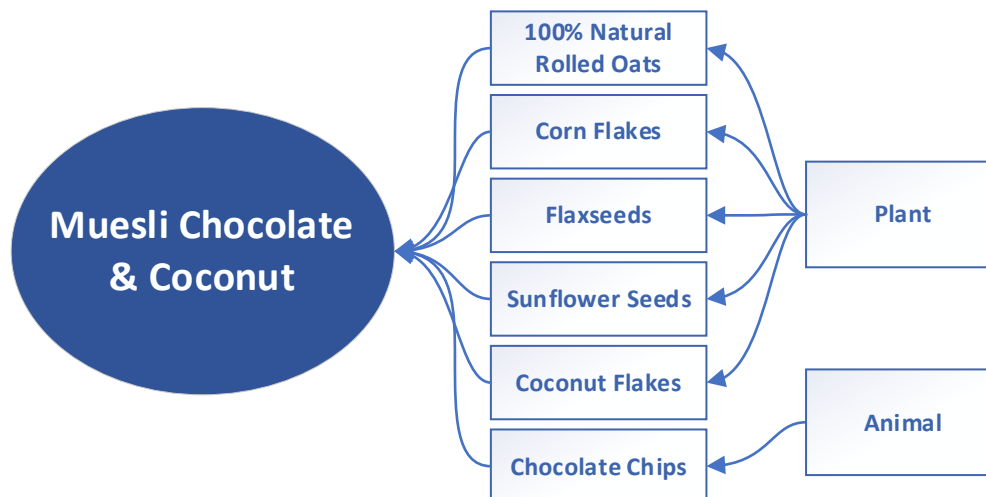

Almonds: – **Halal** (Aslan) [The almond is a species of tree native to Iran and surrounding countries but widely cultivated elsewhere. The almond is also the name of the edible and widely cultivated seed of this tree.]

Dried Blueberries: – **Halal** (Aslan) [Blueberries are a widely distributed and widespread group of perennial flowering plants with blue or purple berries. They are classified in the section Cyanococcus within the genus Vaccinium. Vaccinium also includes cranberries, bilberries, huckleberries and Madeira blueberries.]

Dried Cranberries: – **Halal** (Aslan) [Cranberries are a group of evergreen dwarf shrubs or trailing vines in the subgenus Oxycoccus of the genus Vaccinium. In Britain, cranberry may refer to the native species Vaccinium oxycoccos, while in North America, cranberry may refer to Vaccinium macrocarpon.]

Concerns – None.

## Muesli Chocolate & Coconut

### Muesli Berries & Almonds (Item: FGI-AML-CC-FT-017)

Mix of cereals, shredded coconut, dehydrated fruits, seeds and chocolate chips.

#### Ingredient Status

100% Rolled Oats: – **Halal** (Aslan) [Rolled oats are a type of lightly processed whole-grain food. Traditionally, they are made from oat groats that have been dehusked and steamed, before being rolled into flat flakes under heavy rollers and then stabilized by being lightly toasted.]

Corn Flakes: – **Halal** (Aslan) [Corn flakes, or cornflakes, are a breakfast cereal made from toasting flakes of corn.]

Flaxseed: – **Halal** (Aslan) [Flax (*Linum usitatissimum*) is a food and fiber crop. Flaxseeds are a good source of dietary fiber and omega-3 fatty acids, including alpha-linolenic acid.]

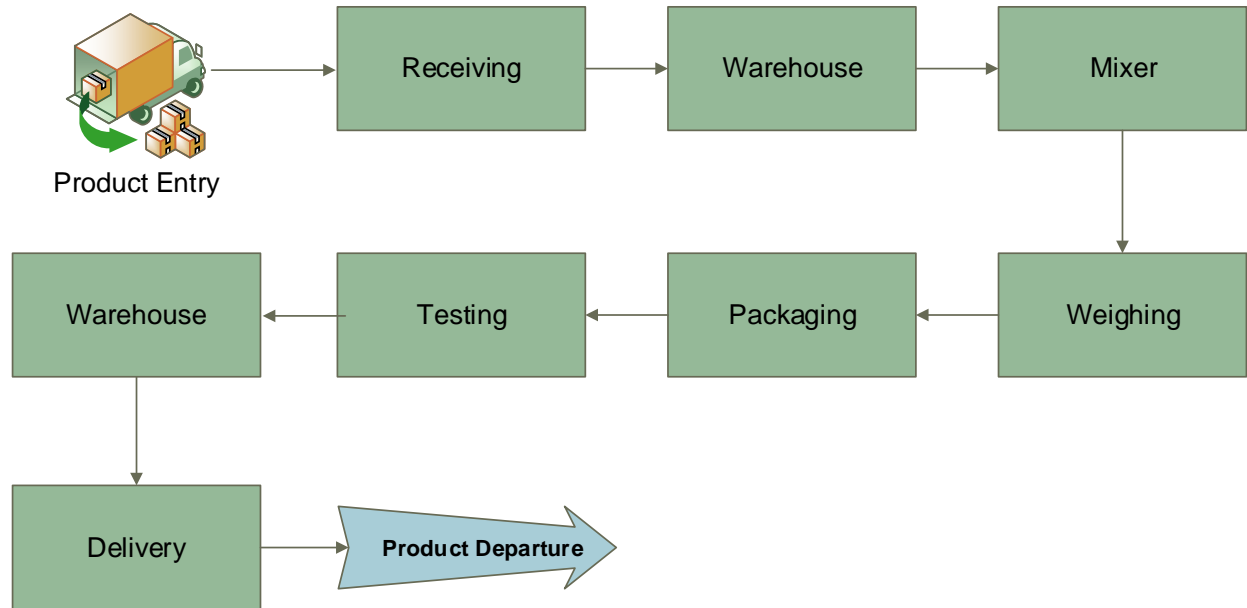

Sunflower Seeds: – **Halal** (Aslan) [Sunflower seed are the seeds of the sunflower. There are three types of commonly used sunflower seeds: linoleic, high oleic, and sunflower oil seeds. Each variety has its own unique levels of monounsaturated, saturated, and polyunsaturated fats.]

Coconut Flakes: – **Halal** (Aslan) [This type of coconut is shaved into long, wide flakes. Flaked coconut is best used when you want a noticeable crunch in your dish, such as adding them to a salad for texture.]

Chocolate Chips: – **Halal** (Aslan) [Chocolate chips or chocolate morsels are small chunks of sweetened chocolate, used as an ingredient in a number of desserts, in trail mix and less commonly in some breakfast foods such as pancakes.]

Concerns – None.

## PROCESSING OVERVIEW

## CLEANING METHOD

### Description:

A. General Equipment Cleaning. All equipment, used for mixing, conveying and packaging will be cleaned and sanitized after production.

1. Established cleaning procedures include:

- Remove all finished products to the designated storage areas.
- Remove or cover any packaging material.
- Clean up any remains on the floor.
- Follow proper lock out procedure before equipment is disassembled, as necessary.
- Product remains are removed from equipment. Remove all garbage from the production area.
- Equipment parts are brushed where required to remove remaining food debris. Do not use water! Use a vacuum cleaner if necessary to remove dust completely.
- Equipment/parts are inspected for cleanliness, and re-cleaned if necessary.
- Equipment/parts are sanitized with an approved sanitizing solution (not alcohol!!)

Equipment is reassembled and re-sanitized if necessary.

Frequency: Daily.

**TESTING METHOD**

The following tests are performed for the production facility: None.

# CONCLUSION

Client was cooperative, compliant with on-site access, and all relevant documentation requests. Inspector was able to identify all critical Halal Area Risk Management locations. All H.A.R.M. areas have been properly mitigated. All source materials have been analysed during this review. A&M Global Solutions, Inc's facility has been deemed to be conducive to maintaining the integrity of a Halal product.

**Based upon this information, the review team hereby certifies both the facility, and all products mentioned in this report to be Halal.**
