Rüsselsheim, 9th July 2021

Remark (page 2) of Halal Control certificate no: C-21-07-2145-30

To whom it may concern,

This remark is part of the Halal Certificate No: C-21-07-2145-30 issued by HALAL CONTROL Germany and expires with the date indicated on the certificate.

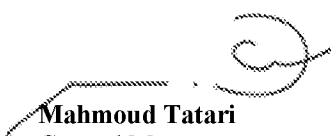

This is a particular remark for companies, which have to maintain the HALAL status of products manufactured by Chemische Fabrik Budenheim KG, Germany during the transportation with silo trucks (transport of bulk goods):

Please make sure that the assigned hauliers assure their services in accordance with the current HALAL guidelines of HALAL CONTROL. In order to maintain the HALAL status during the bulk transport in silo trucks, it is essential that the hauliers have not transported any good of porcine origin in any of the previous loads. Please be aware that a violation will void the halal certification status of the product.

This remark does only apply to bulk transports.

Please do not hesitate to contact us, should you have further questions.

With kind regards,

Mahmoud Tatari
