COMPANY BACKGROUND

Halal Watch World LLC is a halal certification limited liability corporation based in the state of New York, and has operated in the certification industry since 1990. HWW is an organization that stands upon the trust of the Muslim public, and believes that it is imperative that their trust never be jeopardized. We maintain standards to the highest degree of scrutiny and perform regular audits for the protection of our constituents.

Halal Watch World understands that halal certification is a communal obligation (فرض كفاية), meaning, at least one person of the community must uphold it. If no one takes up this responsibility, the entire community bears a burden of sin. Therefore, we must be extra diligent with this effort. We realize the seriousness of the matter and understand the dire consequences of not filling this duty to the fullest capacity. God explains this to us in the Holy Quran by His statement:

“And say not concerning that which your tongue says falsely: 'This is Halal and this is Haram,' so as to invent lies against Allah. Verily, those who invent lies against Allah will never prosper...A passing brief enjoyment (will be theirs), but they will have a painful torment.”

[Al Quran] 16:116-117

HWW ensures to the best of its ability a high level of authenticity is upheld. This allows them to gain the trust of the Muslim community, and garner strong relationships with companies who produce, process, and distribute halal products at all levels. By this, they are able to offer halal producing company's guidance and consultation on the direction of their processes and products, while ensuring that Islamic dietary standards are always maintained and monitored. Muslims can use this information in order to make well informed decisions about what they choose to eat.

Legal Filings: Halal Watch World holds registered trademark number 4728733, and Department of State (New York) number 4814343. Halal Watch World is also a registered halal certifying organization with The Department of Agriculture and Markets of New York State (See supporting documentation).

We begin in the name of God SWT

CERTIFICATION CONSIDERATIONS

There are 4 main factors taken into consideration when determining the halal status of a product:

Is the product/ingredient Halal Aslan (by default)?

If the product is Halal by default, then there will be no ingredient investigation conducted. An audit of the HPF (Halal Product Facility), facility related documents and product identification documentation will however, still be required.

Is the product/ingredient Halal certified via another organization?

If another organization certifies the product as Halal, then it is incumbent upon us to perform a *tahqeeq* (verification) certification of the establishment. We must be able to ascertain that the certifying body is competent and capable of determining the status of such products. In the event that we are unable to gain this information, our organization must inspect the location of production before certifying.

What is the Risk Assessment of the Facility?

Each HPF (Halal Product Facility) must be assessed and assigned an appropriate level of risk. Each facility is graded according to assessed risk. As risk increases, guidelines, restrictions, and measures become more stringent. Risk is determined according to the products present in the facility, product and process management, and the equipment utilized for processing. Any product/s made with or derived from the items mentioned below would be considered Haram:

1. Human derived ingredients
2. Pork
3. Donkey (excluding the Onager)
4. Animals with fangs or talons (Carnivorous)
(Excluding Hyena and Fox according to school of thought)
5. Animals not slaughtered according to Islamic ritual rites
6. Carrion
7. All forms of filth (Najis) i.e. Urine, Excrement, Blood, Pus, Vomit, etc
8. Insects (other than locusts)
9. Animals fed with more than 50% of any of the above without being fed on a pure diet for a stipulated number of days (The Jallaalah)
10. Any intoxicants
11. Anything toxic or harmful to the body (such as cigarettes)
12. Anything processed, made, produced, manufactured, and/or stored using utensils, equipment, and/or machinery in contact with

any of the above that have not been cleansed according to standards which remove contaminants.

HiRF: High Risk Facility

Any facility that utilizes item/s listed above or a derivative thereof within the HPF and processes both halal and haram products using indifferent tools, machinery, or utensils. Thus, HiRF's by nature involve contaminants in some way in its processing.

MeRF: Medium Risk Facility

Any facility that processes both halal and haram products using segregated tools, machinery, or utensils to the exclusion of items listed above. Facilities that process any of these items, even if segregation methods are employed, are to be deemed HiRF's.

LoRF: Low Risk Facility

Any facility that does not process haram products on or inside of the premises.

As mentioned earlier, in relation to each risk level there are guidelines, restrictions and measures in place for the avoidance of contamination. Before any facility or any product made in said facility can be considered Halal suitable or certified Halal, these guidelines will have to be strictly adhered to.

Regarding contamination, products cannot be cooked upon or within the same utensils without proper cleansing. This means that any liquid substance that interacts with non-halal products becomes contaminated. This includes oil, and other wet cooking surfaces. Thus, if a vat of oil is used to cook non-halal products (which is considered as filth), it cannot be used to cook Halal products without contaminating it.

Are there any contents in the product that contain impermissible ingredients?

We refer to the list of impermissible consumables on the previous pages. If the product under audit is found to contain any of the ingredients on the ban list, these products cannot be considered as halal, unless said ingredients are replaced with halal suitable alternatives.

Shawarma Paradise

Client Details	
GENERAL INFORMATION	
Total Number of Products:	6
Total Number of Ingredients:	29
SUPPLIER OVERVIEW	
Supplier 1:	Restaurant Depot

PRODUCT INFORMATION

Product Name	HWW Product ID
beef shawarma	RS298_RF1515
chicken shawarma	RS298_RF1516
falafel	RS298_RF1517
burger	RS298_RF1518
crispy chicken	RS298_RF1519
wrap	RS298_RF1532

PRODUCT PROFILE

Beef Shawarma

beef shawarma (RS298_RF1515)

comes with cucumber, tomato, white cabbage, onion, pickles

- **INGREDIENTS:**

- INGREDIENT 5930 | beef (Restaurant Depot)
- INGREDIENT 5981 | Cumin (Restaurant Depot)
- INGREDIENT 5982 | Cardamom (Restaurant Depot)
- INGREDIENT 5983 | Paprika (Restaurant Depot)
- INGREDIENT 5984 | Salt and pepper (Restaurant Depot)
- INGREDIENT 5985 | Olive oil (Restaurant Depot)
- INGREDIENT 5986 | Fresh garlic (Restaurant Depot)

PRODUCT PROFILE

Chicken Shawarma

chicken shawarma (RS298_RF1516)

comes with cucumber, tomato, white cabbage, onion, pickles

- **INGREDIENTS:**

- INGREDIENT 5929 | chicken (Restaurant Depot)
- INGREDIENT 5975 | Cumin (Restaurant Depot)
- INGREDIENT 5976 | Cardamom (Restaurant Depot)
- INGREDIENT 5977 | Paprika (Restaurant Depot)
- INGREDIENT 5978 | Salt and pepper (Restaurant Depot)
- INGREDIENT 5979 | Olive oil (Restaurant Depot)
- INGREDIENT 5980 | Fresh garlic (Restaurant Depot)

PRODUCT PROFILE

Falafel

falafel (RS298_RF1517)

comes with cucumber, tomato, white cabbage, onion, pickles

- **INGREDIENTS:**

- INGREDIENT 5971 | parsley (Restaurant Depot)
- INGREDIENT 5972 | cilantro (Restaurant Depot)
- INGREDIENT 5973 | chickpeas (Restaurant Depot)
- INGREDIENT 5974 | cumin (Restaurant Depot)

PRODUCT PROFILE

Burger

burger (RS298_RF1518)

comes with cucumber, tomato, white cabbage, onion, pickles

- **INGREDIENTS:**

- INGREDIENT 5928 | patty (Restaurant Depot)
- INGREDIENT 5970 | Salt and pepper (Restaurant Depot)

PRODUCT PROFILE

Crispy Chicken

crispy chicken (RS298_RF1519)

comes with cucumber, tomato, white cabbage, onion, pickles

- **INGREDIENTS:**

- INGREDIENT 5927 | chicken (Restaurant Depot)
- INGREDIENT 5964 | Cumin (Restaurant Depot)
- INGREDIENT 5965 | Cardamom (Restaurant Depot)
- INGREDIENT 5966 | Paprika (Restaurant Depot)
- INGREDIENT 5967 | Salt and pepper (Restaurant Depot)
- INGREDIENT 5968 | Olive oil (Restaurant Depot)
- INGREDIENT 5969 | Fresh garlic (Restaurant Depot)

PRODUCT PROFILE

Wrap

wrap (RS298_RF1532)

- **INGREDIENTS:**
 - INGREDIENT 5987 | flour (Restaurant Depot)
 - INGREDIENT 5988 | egg (Restaurant Depot)

CLEANING METHOD

Description:

1. *Personnel Sanitation (The HPP): *

- All personnel must wash hands with soap and water for at least 20 seconds before handling halal products.
- Staff must wear clean and sanitized uniforms, head coverings, and gloves when in direct contact with halal products.
- Any employee showing signs of illness must report to their supervisor and refrain from handling halal products.

2. *Equipment Sanitation (The HPE): *

- All equipment and tools used in the production of halal products must be thoroughly cleaned and sanitized before and after each use.
- Sanitizing agents used must be approved for use in food facilities and must not contain any non-halal substances.
- Surfaces that come into contact with halal products must be cleaned with a designated halal-only cloth or sponge to prevent cross-contamination.

3. *Product Sanitation (The HP): *

- Halal products must be stored in sealed containers to prevent contamination.
- The storage area for halal products must be cleaned and sanitized regularly to maintain a hygienic environment.
- Any spillage or contamination of halal products must be addressed immediately according to the spillage response procedure.

Frequency: Daily.
