Grace Biolena

Introduce yourself

First, I would like to go over the format for today's audit:

There are 3 phases that I will be completing with you.

### 1. Opening Meeting

----a. Overview: Primary concerns for halal certification

----b. Discovery: Gather basic information about your facility, personnel, and daily business activities

----c. Fitness: Assess your facilities' standards for quality assurance

----d. Halal Deposition: Determine if the facilities are compliant with halal dietary restrictions

### 2. Walkthrough

----I am commissioned to record, or photolog at my discretion critical contact points throughout the facility. The walkthrough is performed by viewing the product from the point of entry into your facility, completely through to the point of exit.

Halal Area Risk Management (H.A.R.M.) locations will be identified within the facility. These areas are classed as nonconformities and are considered to have a potential for cross-contamination or have the potential to denigrate the integrity of the Halal product. In the event that a H.A.R.M location requires mitigation, I will make note of it as a non-conformity. Any non-conformances will require corrective action in order to pass.

I will also be observing the utilization of your machinery, apparatuses', tools, and other such items.

Storage and warehouse locations will also be observed for proper segregation methods. I will determine whether or not halal products are easily identifiable, and reporting if mislabeling, or mix-ups are possible. Computer monitoring systems will also be taken into account.

Raw materials, packaging, and finished products will be observed throughout the tour.

Sanitation processes or methods may also be requested for observation if deemed necessary.

I will also assess the level of integrity of your personnel and your halal system if present. Honesty and transparency will be key factors in my report.

### 3. Closing Meeting

----During the closing meeting, I will summarize and record my observations during the walkthrough.

I will record the risk assessment, which is based upon the following metrics:

HIGH RISK = Facility processes both halal and haram products using indifferent tools, machinery, or utensils.

MEDIUM RISK = Facility processes both halal and haram products using segregated tools, machinery, or utensils.

LOW RISK = Facility does not process any haram products on or inside of the premises.

Finally, I will provide a final assessment, communicate all non-conformities, and provide a suggested certification status. I will request signatories, and will submit my report to the certification committee.

Are there any questions before we begin?

---

<b>Conducted on</b>	08.01.2026 17:04 CST
<b>Company Name</b>	Kestrel Growth Brands, Inc. DBA Singing Dog Vanilla
<b>Company Type</b>	Manufacturing Facility
<b>Location</b>	729 Pike Springs Road Phoenixville PA. 19460

## Flagged items

1 flagged

Halal Deposition

**What type of alcohol is being used?**

Ethyl Alcohol (Ethanol)

## General

What is the size of the facility in square feet? 7000

Number of Employees 3

Number of Working Shifts 1

Operating Hours 08H00 - 17H00

Days of Operation Week M-F

Fitness	
General	
Facility Produces Food Grade Products?	Yes
Facility is HACCP certified?	Yes
Do FDA inspectors visit this facility?	Yes
Facility produces Meat and/or Poultry products?	No
During production, is it possible for particulates to become airborne?	No
List any other relevant certifications that the client currently holds, such as, ISO, GCC, BRC, etc.	Kosher, SQF and Organic
Changes & Alterations	
Has your Halal Enforcement Director/Team changed?	No
Has your facility changed in size since our last audit?	No
Has your product facility rebranded or relocated?	No

<b>Halal Deposition</b>		1 flagged
Changes & Alterations		
Have you added or removed halal products from your production profile since our last audit?	No	
Have your raw material manufacturers changed?	No	
Have you altered or modified your halal product formulation in any way?	No	
Have you altered or modified your halal production process in any way?	No	
Check all of the fillers/additives added or injected into any halal products:	None	
Do you produce any of the following product types?	NS - Non-Specific	
Please detail the product type		
Do you manage any products that contain alcohol in your facility?	Yes	
What type of alcohol is being used?	Ethyl Alcohol (Ethanol)	
Do you process your products containing ethanol using the same tools, machines, containers, tables, or other items as your halal products?	N/A	
Have any animal bi-products or derivatives been processed at this facility since our last visit?	No	
Regionally, Halal products are being sold:		
	Domestically	Internationally
List all countries that the product is sold to:		
Chile		

## Notes pre-walkthrough

During your walkthrough, be sure to sample at least 3 ingredients and 3 finished products to confirm that they match the product specs as listed in the pre-audit form. Confirm that seals are applied, and that other information is accurate. Confirm log sheets are being properly filled out.

---

**Please describe what we should expect to see during our walkthrough today. Be sure to explain the process step by step from the products perspective. (meaning, from point a to point z)**

Bringing bulk in facility. Loading dock. Production. 55 Gallon drums filled into 2 & 4 Ounce bottles.

<b>Final Evaluation</b>	3 / 3 (100%)
-------------------------	--------------

<b>Were you able to confirm proof of purchase for the sampled RM's?</b>	Yes
---	-----

<b>Select the means of confirmation</b>	Visual Confirmation
---	---------------------

**Detail the ingredient name, it's company, and any identifying numbers**

<b>Any H.A.R.M. locations identified that require mitigation?</b>	No
---	----

<b>Were all of the sample finished products marked with a halal certification seal?</b>	Yes
---	-----

<b>Were packages of the sampled products labeled with the clear and correct name?</b>	Yes
---	-----

<b>Were any raw materials/ingredients marked with a halal certification seal?</b>	Yes
---	-----

<b>Were halal products clearly segregated in freezer, storage, and warehouse locations?</b>	Yes
---	-----

**Detail the method of segregation between halal certified and non-halal certified products:**  
Shelving and Different lines

**Detail your final evaluation. Be sure to include failures and concerns uncovered during the question, and walk-through phases:**  
Client is a repackaging facility that gets their bulk from a Halal certified manufacturer. Bulk gets filled into bottles of 2 & 4 Ounces. Alcohol free and vanilla with alcohol is produced using different machinery. Medium risk facility

<b>Suggested Certification Status</b>	Certified
---------------------------------------	-----------

CERTIFIED: Select certified if the client appears to have everything in order. PENDING: Select pending if the client has some non-conformities. SUSPENDED: Select suspended if the certified client appears to have unintentionally breached the contract in some way shape or form. REVOKED: Select revoked if the certified client appears to have intentionally breached the contract in some way shape or form.
