## Service Comments:

**Tech Comments:**

Hi, this is Mike with ABC home and commercial services came out to do your initial set up for pest control. On the exterior did the initial set up of all rodent bait stations. On the interior did the initial set up of all interior rodent traps and interior light traps. Also sprayed the common areas in the office and in the warehouse. On the exterior spray around the perimeter of the facility. Also, if you could fill out the one question survey that will be sent out an email we would appreciate it.

**Wind Speed (if mosquito backpack used):**
