Good day Daisy,

Just reaching out to you regarding your latest submission. I don't know if you saw your progress report yet, but a note we only still require your SSOP documentation before you pass your review.

After submitting this documentation and after it passes, you'll be able to schedule your facility audit, which should be your last step before halal certification.

We'd like to urge you to please submit your SSOP at your earliest convenience so we can halal certify you as soon as possible.

Hope to hear back from you soon!

Best regards,

Tameem Allie

That's probably because the manufacturers were not listed in the previous step. You will not be able to upload halal documents to the relevant manufacturers in the vendor approval step if you did not list their names in the previous step under the ingredients they supply you with.

Perhaps a meeting is due. Please let me know if you have some time right now.

Best,

Subject: RE: Checking-in

Good day Daisy,

You should be able to upload your halal certificates and halal disclosure statements on the vendor approval step shown below:

The screenshot shows the Halal Watch World Portal interface. The top navigation bar includes the logo, the text "Halal Watch World | Portal", a notification bell, a "+ NEW REGISTRATION" button, and a "LOG OUT" button. On the left, a sidebar menu lists: Dashboard, Registrations, Documents, Facilities, Products, Certificates, Reports, Registration Reports, and Audit Reports. The main content area is titled "Registration" and "Vendor Approval". It contains an information box stating: "The following vendors have been listed as raw material manufacturers for your ingredients. 2 have been identified as APPROVED. In order to approve all of your halal certified products, each raw material manufacturer MUST have either a halal certificate, or fill out a halal disclosure statement. You may attach a disclosure statement or halal certificate for the non-approved vendors, or click NEXT to proceed, and one of our reviewers will assist you with this process." Below this is a "HALAL DISCLOSURE TEMPLATE" button. A table lists two vendors: "US Salt" and "intestine group". For each vendor, there are buttons for "+ DOCUMENTS (1)" and "@ REQUEST DISCLOSURE". The "REQUEST DISCLOSURE" buttons are circled in green. At the bottom right of the main area are "BACK" and "NEXT" buttons. On the right side, a vertical checklist shows the registration steps: Select registration type, Facility details, Legal Business Documents, Traceability Plan, Flowchart of Processing, Sanitation Standard Operating Procedure, Recall Plan, and Pest Control. The first four items are marked with green checkmarks.

Please note that the names shown on the left circled in blue are the manufacturers/suppliers you've listed in the previous step 'Finished Products'. You will not be able to upload halal documents to the relevant manufacturers in the vendor approval step if you did not list their names in the previous step under the ingredients they supply you with.

If you click on the buttons circled in red, this will allow you to upload the necessary halal documents in relation to the manufacturer listed in the same row.

Clicking the buttons circled in green will allow you to send an automatic request to the relevant manufacturer via email to sign a halal disclosure statement for the ingredients you've listed them under in the previous step. You will be required to enter the email address of your point of contact with the manufacturing company once you click this button before the automatic email can be sent. We also highly recommend informing your point of contact of the automatic email as it may end up in their spam folder.

I hope this clears up any confusions. If things are still unclear, perhaps we should setup another meeting so I can explain in detail. You can do so using the button below:
