Halal Watch World

Greetings!

This is to advise that I Kanu Priya Visweash am the founder and owner of Orange Muslin LLC DBA The Ghee Co.

Please see below listed steps for Sanitation in our production of Ghee.

Sanitary practices for product and storage:

All ingredients arrive in sealed carton boxes and are opened by staff with gloves and loaded into kettles. The finished product is handled with gloves and is untouched by hand. The barrel is sealed with shrink wrap to allow to cool.

Staff sanitation:

All staff members wear hair nets and gloves during handling of product for filtering and bottling.

Product integrity:

Product is sealed immediately on bottling with shrink bands passed through a heat tunnel and band sealed in case of pouch with a continuous band sealing machine

Regards,

**Kanu Priya Visweash
